500 BCE to 800 CE and drawing on sources ranging from extant garments and architectural iconography to official edicts and literature this volume reveals Antiquity's preoccupation with dress which was matched by an appreciation of the processes of production rarely seen in later periods From a courtesan's sheer faux silk garb to the sumptuous purple dyes of an emperor's finery clothing was as much a marker of status and personal expression as it was a site of social control and anxiety Contemporary commentators expressed alarm in equal measure at the over-dressed the excessively ascetic or at barbarian silhouettes Richly illustrated with 100 images **A Cultural History of Dress and Fashion in Antiquity** presents an overview of the period with essays on textiles production and distribution the body belief gender and sexuality status ethnicity visual representations and literary representations

Perishable Material Culture in Prehistory Linda M. Hurcombe, 2014-04-24 **Perishable Material Culture in Prehistory** provides new approaches and integrates a broad range of data to address a neglected topic organic material in the prehistoric record Providing new ideas and connections and suggesting revisionist ways of thinking about broad themes in the past this book demonstrates the efficacy of an holistic approach by using examples and case studies No other book covers such a broad range of organic materials from a social and object biography perspective or concentrates so fully on approaches to the missing components of prehistoric material culture This book will be an essential addition for those people wishing to understand better the nature and importance of organic materials as the missing majority of prehistoric material culture

A Cultural History of Dress and Fashion in the Medieval Age Sarah-Grace Heller, 2018-11-01 During the medieval period people invested heavily in looking good The finest fashions demanded careful chemistry and compounds imported from great distances and at considerable risk to merchants the Church became a major consumer of both the richest and humblest varieties of cloth shoes and adornment and vernacular poets began to embroider their stories with hundreds of verses describing a plethora of dress styles fabrics and shopping experiences Drawing on a wealth of pictorial textual and object sources the volume examines how dress cultures developed often to a degree of dazzling sophistication between the years 800 to 1450 Beautifully illustrated with 100 images **A Cultural History of Dress and Fashion in the Medieval Age** presents an overview of the period with essays on textiles production and distribution the body belief gender and sexuality status ethnicity visual representations and literary representations

Medieval Clothing and Textiles Robin Netherton, Gale R. Owen-Crocker, 2006 The study of medieval clothing and textiles reveals much about the history of our material culture as well as social economic and cultural history as a whole This book makes use of archaeological finds and text references in order to examine this history providing an overview of historic fashions

Textiles and the Medieval Economy Angela Ling Huang, Carsten Jahnke, 2014-06-30 Archaeologists and textile historians bring together 16 papers to investigate the production trade and consumption of textiles in Scandinavia and across parts of northern and Mediterranean Europe throughout the medieval period Archaeological evidence is used to demonstrate the existence or otherwise of international trade and to examine the physical characteristics

of textiles and their distribution in order to understand who was producing using and trading them and what they were being used for Historical evidence mainly textual is employed to link textile names to places numbers and prices and thus provide an appreciation of changing economics patterns of distribution and the organisation of trade Different types and qualities of cloths are discussed and the social implications of their production and import export considered against a developing background of urbanism and increasing commercial wealth

Clothing the Past: Surviving Garments from Early Medieval to Early Modern Western Europe Elizabeth Coatsworth, Gale Owen-Crocker, 2018-02-12 An astonishing number of medieval garments survive more or less complete Here the authors present 100 items ranging from homely to princely The book s wide ranging introduction discusses the circumstances in which garments have survived to the present sets and collections constructional and decorative techniques iconography inscriptions on garments style and fashion Detailed descriptions and discussions explain technique and ornament investigate alleged associations with famous people many of them spurious and demonstrate even when there are no known associations how a garment may reveal its own biography a story that can include repair remaking recycling burial resurrection and veneration accidental loss or deliberate deposition The authors both have many publications in the field of medieval studies including previous collaborations on medieval textiles such as *Medieval Textiles of the British Isles AD 450 1100 an Annotated Bibliography* 2007 the *Encyclopedia of Medieval Dress and Textiles of the British Isles* 2012 and online bibliographies

From Goths to Varangians Line Bjerg, John H. Lind, Søren Michael Sindbæk, 2013-08-13 In late Antiquity archaeology demonstrates lively and far flung exchange along the river Dniester through current Poland to the Baltic By the 11th century the former Barbaricum had been transformed into a string of Christian kingdoms and principalities whose parallel histories are as conspicuous as their differences From the legendary if possible real migrations of the Goths in Antiquity to the Varangian guard at the imperial court of Byzantium in the late Viking Age trans cultural interaction complemented important historical development This book is about aspects of the changing interactions from late Antiquity to the High Middle Ages from Goths to Varangians and from the Baltic to the Black Sea The history and archaeology of these connections have been poorly exposed and investigated in modern times The papers presented in this volume are a selection of those presented during a series of four meetings organised 2007 2009 by the Varangian Network an interdisciplinary network for archaeological and historical research on relations between the Baltic and the Black Sea from late Antiquity to the medieval period
