usual Left Right dichotomy a metapolitical school of thought which he helped to found in France in 1968 with the establishment of GRECE Research and Study Group for European Civilisation He continues to write and give lectures and interviews He lives in Paris Arktos has previously made available his books *The Problem of Democracy* and *Beyond Human Rights* both published in 2011

Strangeness in Jacobean Drama Callan Davies, 2020-09-15 Callan Davies presents strangeness as a fresh critical paradigm for understanding the construction and performance of Jacobean drama one that would have been deeply familiar to its playwrights and early audiences This study brings together cultural analysis philosophical enquiry and the history of staged special effects to examine how preoccupation with the strange unites the verbal visual and philosophical elements of performance in works by Marston Shakespeare Middleton Dekker Heywood and Beaumont and Fletcher *Strangeness in Jacobean Drama* therefore offers an alternative model for understanding this important period of English dramatic history that moves beyond categories such as Shakespeare's late plays tragicomedy or the home of cynical and bloodthirsty tragedies This book will be of great interest to students and scholars of early modern drama and philosophy rhetorical studies and the history of science and technology
