Nomades Gor T4 Ebook:

War's Nomads Frederick Grice, 2015-03-19 The only known detailed account in existence of the small radar units who played a key part in the Western Desert Campaign Highly recommended Military Modelcraft International War's Nomads is an evocative account of one man's experience of life in a mobile radar unit after the battle of El Alamein as Rommel's Afrika Korps was relentlessly pursued across the desert through Egypt Libya and Tunisia by the Eighth Army After Fred Grice was called up in 1941 he kept two journals of his experiences The first deals with waiting to embark after initial training the journey to the battle zone and the privations of a low ranking AC Daily life onboard a ship is vividly brought to life with details of routine the cramped conditions the banter and hobbies used to pass the time by the troops and the luxurious by contrast existence of the officers The second gives a detailed account of the activities of Unit 606 a radar crew that follows just behind the battlefront 606 provided radio detection for the advanced landing grounds being used by RAF fighter bomber squadrons because these landing strips in turn were the target of the German Luftwaffe and Italian Air Force attacks It was a tiny unit never more than ten men frequently operating for protracted periods in complete isolation Fred Grice's account lyrically evokes the landscape and the often tense and dangerous environment they operated in pitching the reader into the experience of traveling with the unit in a three ton truck finding ingenious solutions to lack of rations and living space even commandeering an abandoned boat to relax in the sea while constantly needing to be alert to dodge air attacks Along with these colorful first person accounts War's Nomads includes an authoritative introduction explaining the background to the military events of the Western Desert campaign and the purpose of 606's mission which Grice for security reasons could not talk about to get to a selection of the two hundred or so landing grounds in the desert with all speed and then defend them against air attack by using a light warning radar set developed to go operational within an hour

On the Trail of the Indo-Europeans: From Neolithic Steppe Nomads to Early Civilisations Harald Haarmann, 2021-01-26 For more than 3000 years Indo European languages have been spoken from India through Persia and into Europe Where are the origins of this language family How and when did its different linguistic branches emerge The renowned historical linguist Harald Haarmann provides a graphic account of what we know today about the origins of Indo European languages and cultures and how they came to be so widely disseminated In this impressive study he succeeds in drawing connections between linguistic findings archaeological discoveries and the latest research into human genetics and climate history In addition to linguistic affinities he shows the economic social and religious concepts that the early speakers of Indo European languages had in common all the way from the Eastern Mediterranean to the Indus Particular attention is devoted to the processes of assimilation with pre Indo European languages and civilisations The result is a fascinating panorama of early Indo European globalisation from the end of the last ice age to the early civilisations in Greece Italy Asia Minor Persia and India

Monthly Catalogue, United States Public Documents ,1990 *The Best Books for Academic Libraries: World history* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers *Monthly Catalog of United States Government Publications* ,1990 **Garments of Paradise** Susan Elizabeth Ryan,2014-06-13 A historical and critical view of wearable technologies that considers them as acts of communication in a social landscape Wearable technology whether a Walkman in the 1970s an LED illuminated gown in the 2000s or Google Glass today makes the wearer visible in a technologically literate environment Twenty years ago wearable technology reflected cultural preoccupations with cyborgs and augmented reality today it reflects our newer needs for mobility and connectedness In this book Susan Elizabeth Ryan examines wearable technology as an evolving set of ideas and their contexts always with an eye on actual wearables on clothing dress and the histories and social relations they represent She proposes that wearable technologies comprise a pragmatics of enhanced communication in a social landscape *Garments of paradise* is a reference to wearable technology s promise of physical and mental enhancements Ryan defines dress acts hybrid acts of communication in which the behavior of wearing is bound up with the materiality of garments and devices and focuses on the use of digital technology as part of such systems of meaning She connects the ideas of dress and technology

historically in terms of major discourses of art and culture and in terms of mass media and media culture citing such thinkers as Giorgio Agamben Manuel De Landa and Gilles Deleuze and Félix Guattari She examines the early history of wearable technology as it emerged in research labs the impact of ubiquitous and affective approaches to computing interaction design and the idea of wearable technology as a language of embodied technology and the influence of open source ideology Finally she considers the future as wearing technologies becomes an increasingly naturalized aspect of our social behavior

Pockets Hannah Carlson, 2023-09-12 Who knew the humble pocket could hold so much history In this enthralling and always surprising account Hannah Carlson turns the pocket inside out and out tumble pocket watches coins pistols and a riveting centuries long social and political history Jill Lepore author of *These Truths A History of the United States* Pockets showcases the best features of cultural history a lively combination of visual literary and documentary evidence As sumptuously illustrated as it is learned this highly inventive and original book demands a pocket sequel Jane Kamensky Wall Street Journal Who gets pockets and why It's a subject that stirs up plenty of passion Why do men's clothes have so many pockets and women's so few And why are the pockets on women's clothes often too small to fit phones if they even open at all In her captivating book Hannah Carlson a lecturer in dress history at the Rhode Island School of Design reveals the issues of gender politics security sexuality power and privilege tucked inside our pockets Throughout the medieval era in Europe the purse was an almost universal dress feature But when tailors stitched the first pockets into men's trousers five hundred years ago it ignited controversy and introduced a range of social issues that we continue to wrestle with today from concealed pistols to gender inequality See GiveMePocketsOrGiveMeDeath Filled with incredible images this microhistory of the humble pocket uncovers what pockets tell us about ourselves How is it that putting your hands in your pockets can be seen as a sign of laziness arrogance confidence or perversion Walt Whitman's author photograph hand in pocket for *Leaves of Grass* seemed like an affront to middle class respectability When W E B Du Bois posed for a portrait his pocketed hands signaled defiant coolness And what else might be hiding in the history of our pockets There's a reason that the contents of Abraham Lincoln's pockets are the most popular exhibit at the Library of Congress Thinking about the future Carlson asks whether we will still want pockets when our clothes contain smart textiles that incorporate our IDs and credit cards Pockets is for the legions of people obsessed with pockets and their absence and for anyone interested in how our clothes influence the way we navigate the world
