Nomadism In Iran From Antiquity To The Modern Era:

Nomadism in Iran Daniel T. Potts, 2014 Potts examines the development of nomadism in Iran over the course of three millennia Evidence of nomadism in prehistory is examined and found insufficient to justify claims of its great antiquity The background of the earliest nomadic groups identified as Persian tribes by Herodotus is examined within the context of the migration of Iranian speakers onto the Iranian plateau in the late second or early first millennium B C Thereafter evidence of nomadic groups in Late Antiquity and early Islamic times is reviewed [Iran in World History](#) Richard C. many studies all of which have diagnosed the country's problem and prescribed solutions based on certain theoretical grounds. This book intends to look inward seeking cultural explanations for Iran's perpetual inability to improve its society. The theme in this book is based on the eloquent words of Nasir Khusrau, a great Iranian poet: *az mast ki bar mast*. The words are from a poem describing a self-adoring eagle that sees its life abruptly ended by an arrow winged with its own feathers; the bird is doomed by its own vanity. The closest interpretation of this idiom in Western Christian culture is *you reap what you sow*, which conveys a similar message that underlines one's responsibility in the sense that sooner or later we must face the choices we make. This would enable us to confront and live up to what Iran's history and culture have taught us. *Sasanian Persia* Touraj Daryaee, 2023-06-29

Of profound importance in late antiquity, the Sasanian Empire is virtually unknown today except as a counterpoint to the Roman Empire. In this highly readable history, Touraj Daryaee fills a significant gap in our knowledge of world history. He examines the Sasanians' complex and colourful narrative and demonstrates their unique significance not only for development of Iranian civilization but also for Roman and Islamic history. The Sasanians were the last of the ancient Persian dynasties and are best known as the pre-eminent practitioners of the Zoroastrian religion. Founded by Ardashir I in 224 CE, the Sasanian Empire was the dominant force in the Middle East for several centuries until its last king, Yazdgerd III, was defeated by the Muslim Arabs in the seventh century. In this concise yet comprehensive book, Touraj Daryaee provides an unrivalled account of Sasanian Persia. Drawing on extensive new sources, he paints a vivid portrait of Sasanian life and unravels the divergent strands that contributed to the making of this great empire. This new edition includes updated economic and political histories as well as several inscriptions that have been found in recent years. *The Turkic Peoples in World History* Joo-Yup Lee, 2023-07-31

The Turkic Peoples in World History is a thorough and rare introduction to the Turkic world and its role in world history, providing a concise history of the Turkic peoples as well as a critical discussion of their identities and origins. The Turks stepped on to the stage of history by establishing the Turkic Qaghanate, the first trans-Eurasian empire in history, in 552 CE. In the following millennium, they went on to create empires that had a profound impact on world history, such as the Uyghur, Khazar, and Ottoman empires. They also participated in building the Mongol empire, and these Turkic-Mongol empires are credited with shaping the destinies of pre-modern China, the Middle East, and Europe. By treating the history of the Turkic peoples as a process of amalgamation and integration rather than simply categorizing the Turkic peoples chronologically or geographically, this book offers new insights into Turkic history. This volume is a comprehensive guide for students and scholars in the fields of world history, Central Asian history, and Middle Eastern studies who are seeking to understand the historical roles of Turkic peoples and their origins.
