North And South Book:

North and South Elizabeth Cleghorn Gaskell, 1855 When her father leaves the Church in a crisis of conscience Margaret Hale is uprooted from her comfortable home in Hampshire to move with her family to the north of England Initially repulsed by the ugliness of her new surroundings in the industrial town of Milton Margaret becomes aware of the poverty and suffering of the local mill workers and develops a passionate sense of social justice This is intensified by her tempestuous relationship with the mill owner and self made man John Thornton as their fierce opposition over his treatment of his employees masks a deeper attraction In North and South Elizabeth Gaskell skillfully fuses individual feeling with social concern and in Margaret Hale creates one of the most original heroines of Victorian literature **North and South**

North and South is a novel by Elizabeth Gaskell first published in book form in 1855. Originally appeared as a twenty-two part weekly serial from September 1854 through January 1855 in the magazine *Household Words* edited by Charles Dickens. The title indicates a major theme of the book: the contrast between the way of life in the industrial north of England and the wealthier south, although it was only under pressure from her publishers that Gaskell changed the title from its original *Margaret Hale*. The book is a social novel that tries to show the industrial North and its conflicts in the mid-19th century as seen by an outsider, a socially sensitive lady from the South. The heroine of the story, Margaret Hale, is the daughter of a Nonconformist minister who moves to the fictional industrial town of Milton after leaving the Church of England. The town is modeled after Manchester where Gaskell lived as the wife of a Unitarian minister. Gaskell herself worked among the poor and knew at first hand the misery of the industrial areas. The change of lifestyle shocks Margaret, who sympathizes deeply with the poverty of the workers and comes into conflict with John Thornton, the owner of a local mill, also a friend of her father. After an encounter with a group of strikers in which Margaret attempts to protect Thornton from the violence, he proposes to her, telling her that he is in love with her. She rejects his proposal of marriage mainly because she sees it as if it were out of obligation for what she had done. Later he sees her with her fugitive brother, whom he mistakes for another suitor, and this creates further unresolved conflict. Margaret, once she believes she has lost his affection, begins to see him in another light and eventually they are reunited.

North and South is all about challenging authority, especially when authority tries to work against compassion and justice. Margaret Hale constantly steps beyond her boundaries as a woman in Victorian England.

Her brother challenges authority by disobeying his commanding officer in the navy and causing a mutiny The laborer Nicholas Higgins organizes workers strikes and insists on the rights of workingmen Anywhere you look in this book you ll find someone fighting the power And that was something that the stuffy Victorians were really not into And because of this they totally thought that North and South would be forgotten over time
