Not In Gods Name Confronting Religious Violence:

Not in God's Name Jonathan Sacks, 2015-06-11 Despite predictions of continuing secularisation the twenty first century has witnessed a surge of religious extremism and violence in the name of God In this powerful and timely book Jonathan Sacks explores the roots of violence and its relationship to religion focusing on the historic tensions between the three Abrahamic faiths Judaism Christianity and Islam Drawing on arguments from evolutionary psychology game theory history philosophy ethics and theology Sacks shows how a tendency to violence can subvert even the most compassionate of religions Through a close reading of key biblical texts at the heart of the Abrahamic faiths Sacks then challenges those who claim that religion is intrinsically a cause of violence and argues that theology must become part of the solution if it is not to remain at the heart of the problem This book is a rebuke to all those who kill in the name of the God of life wage war in the name of the God of peace hate in the name of the God of love and practise cruelty in the name of the God of compassion For the sake of humanity and the free world the time has come for people of all faiths and none to stand together and declare Not In God s Name

Oikos: God's Big Word for a Small Planet Andrew Francis, 2017-04-25 How you spend your time and money controls what happens on this planet Planet Earth and its people are in danger We face ongoing economic and ecological crises These will deepen unless all of God s people begin to act as one global community Natural resources are diminishing and the economic world order is changing We cannot go on living as though we can call up another planet Change is needed now and this book addresses that The biblical vision of the world as oikos meaning household is God s challenge to all people about the way we live now and in the future Oikos affirms the need for reconciliation and peace between faiths and nations and should determine our economic practices and how we care for the

planet In this timely and challenging book is a renewed call to follow the Maker's instructions Whether it is 9/11, Chernobyl or the 2008 financial crash that call for change is repeating itself This book not only explains why we need to change but also provides practical advocacy of how you can help to achieve it **Christians in the City of Lagos** Caleb O.

Oladipo, 2025-08-07 Despite political persecution economic stalemate and military intimidation this book shows how churches of all denominations continue to grow under the stimulus of vibrant indigenous spirituality and cultural idioms Incorporating interviews with Christians from six of the most influential churches in Lagos this book gives readers a sense of daily life in Lagos for Christians Through this original ethnographic research Caleb O. Oladipo explores first hand accounts of faith and practice in the city offering a unique perspective to scholars of global Christianity A collection of stories from Christians of diverse ethnographic backgrounds this book shows that Christianity is an integral part of the rhythm of life in Lagos Christians in Lagos one of the most populous cities in the world are dynamic with a confluence of traditions beliefs and community

Memories of Utopia Bronwen Neil, Kosta Simic, 2019-12-05 These essays examine how various communities remembered and commemorated their shared past through the lens of utopia and its corollary dystopia providing a framework for the reinterpretation of rapidly changing religious cultural and political realities of the turbulent period from 300 to 750 CE The common theme of the chapters is the utopian ideals of religious groups whether these are inscribed on the body on the landscape in texts or on other cultural objects The volume is the first to apply this conceptual framework to Late Antiquity when historically significant conflicts arose between the adherents of four major religious identities Greco-Roman pagans newly dominant Christians diaspora Jews who were more or less persecuted depending on the current regime and the emerging religion and power of Islam Late Antiquity was thus a period when dystopian realities competed with memories of a mythical Golden Age variously conceived according to the religious identity of the group The contributors come from a range of disciplines including cultural studies religious studies ancient history and art history and employ both theoretical and empirical approaches This volume is unique in the range of evidence it draws upon both visual and textual to support the basic argument that utopia in Late Antiquity whether conceived spiritually artistically or politically was a place of the past but also of the future even of the afterlife Memories of Utopia will be of interest to historians archaeologists and art historians of the later Roman Empire and those working on religion in Late Antiquity and Byzantium The Gospel in the

Dock Bryan M. Christman, 2021-08-10 C. S. Lewis famously penned the phrase God in the Dock and proposed that there was a great divide between ancient and modern humans in that our ancestors would have rightly seen themselves in the dock before God while we moderns have placed God there before us But what if what God's love most desires for us the gospel or good news of the only way of life for humanity has been in the dock before us from the time of Adam and Eve And what if it is also the case that the gospel is often in the dock as though it is not good even for the church This book builds upon and expands the life and death stakes Lewis proposed by demonstrating that the gospel way of faith itself has been placed in the

dock by us and in many ways ruined our relationships with God with our own selves with one another and even with the natural world itself which we are meant to steward for its good In these pages the reader will discover why the gospel that requires faith is good news but why we so tragically default to our divisive and self destructive ways The Politics of New Atheism Stuart McAnulla, Steven Kettell, Marcus Schulzke, 2018-07-04 New atheism is best known as a literary and media phenomenon which has resulted in the widespread discussion of the anti religious arguments of authors such as Richard Dawkins Sam Harris and Christopher Hitchens yet it also has strongly political dimensions This book analyses the political aspects of new atheism and offers an analysis that is informed by insights from political science and political theory The authors locate new atheism within a diverse history of politically oriented atheisms It is argued the new atheist movement itself contains a considerable variety of political viewpoints despite coalescing around forms of secularist campaigning and identity politics New atheist views on monotheism public life morality and religious violence are examined to highlight both limitations and strengths in such perspectives Conservative feminist and Marxist responses to new atheism are also evaluated within this critical analysis The book rejects claims that new atheism is itself a form of fundamentalism and argues that the issues it grapples with often reflect wider dilemmas in liberal left thought which have ongoing relevance in the era of Trump and Brexit It will be of great interest to researchers and scholars in the fields of new atheism political atheism secularism non religion and secular religious tensions **Natural Communion**s Gabriel Ricci, 2019-06-03 The academic treatment of the environment and nature since the 1980s has been formalized in sub disciplines like environmental history environmental philosophy ecocriticism and eco spirituality Within these disciplines the concept of nature has been variously employed to reorient humanity to a holistic moral standard In each case there is general consensus that inquiry ought to turn on moral considerations of the interaction of humans and the environment with implied admonitions to live sustainably Lending credence to the Earth as a superorganism in its own right these modern ecological expressions can be traced to Rachel Carson s revelations in Silent Spring However they have a long pre history which appears in monistic philosophy the spirit of Deism in both Romanticism and the Enlightenment and in political expressions of the idea of Nature s God designed to promote a secular vision of the state and to overturn predatory religious rivalries With this literary momentum Natural Communion's volume 40 of Religion and Public Life gathers interdisciplinary essays which reconfigure humanity within an ecotheological anthropology and which treat the idea of the sacred from the perspective of an Earth centered spirituality thus redefining humanity s response to ecological challenges and initiating a new status within a more expansive cosmology complete with a naturalized conception of Divine Reality
