Not So Big Solutions For Your Home:

Not So Big Solutions for Your Home Sarah Susanka, 2002-10-01 Design a home that fits the way you really live without adding more square footage In *Not So Big Solutions for Your Home* architect and bestselling author Sarah Susanka offers a practical and inspiring guide to transforming your house into a space that feels just right Building on the principles of the Not So Big House movement this book focuses on thoughtful design over sheer size helping homeowners create spaces that are functional beautiful and deeply personal Inside you ll discover Smart design strategies for every room from entryways and kitchens to bedrooms and home offices Over 150 sketches and photographs that illustrate real world solutions to common layout and lifestyle challenges Tips for remodeling reconfiguring and reimagining your existing space to better support how you live Guidance on integrating personal touches that reflect your values habits and sense of comfort Whether you re building new or reworking what you already have this book empowers you to make design choices that prioritize quality character and livability over excess

The Not So Big Life Sarah Susanka, 2007-05-01 Have you ever found yourself asking Is this all there is to life Or wondering if this bigger life you have created is actually a better life And do you wonder how it all got so out of control In her groundbreaking bestseller *The Not So Big House* architect Sarah Susanka showed us a new way to inhabit our houses by creating homes that were better not bigger Now in *The Not So Big Life* Susanka takes her revolutionary philosophy to another dimension by showing us a new way to inhabit our lives Most of us have lives that are as cluttered with unwanted obligations as our attics are cluttered with things The bigger is better idea that triggered the explosion of McMansions has spilled over to give us McLives For many of us our ability to find the time to do what we want to do has come to a grinding halt Now we barely have time to take a breath before making the next call on our cell phone while at the same time messaging someone else on our Blackberry Our schedules are chaotic and overcommitted leaving us so stressed that we are numb yet we wonder why we cannot fall asleep at night In *The Not So Big Life* Susanka shows us that it is possible to take our finger off the fast forward button and to our surprise we find how effortless and rewarding this change can be We do not have to lead a monastic life or give up the things we love In fact the real joy of leading a not so big life is discovering that the life we love has been there the entire time Through simple exercises and inspiring stories Susanka shows us that all we need to do is make small shifts in our day subtle movements that open our minds as if we were finally opening the windows to let in fresh air *The Not So Big Life* reveals that form and function serve not only architectural aims but life goals as well Just as we can tear down interior walls to reveal space we can tear down our fears and assumptions to open up new possibilities The result is that we quickly discover we have all the space and time we need for the things in our lives that really matter But perhaps the greatest reward is the discovery that small changes can yield enormous results In her elegant clear style Susanka convinces us that less truly is more much more

The American Idea of Home Bernard Friedman, 2017-05-02 Over thirty leaders in American architecture discuss the most significant issues

in the field today Home is an idea Meghan Daum writes in her foreword a story we tell ourselves about who we are and who and what we want closest in our midst In The American Idea of Home documentary filmmaker Bernard Friedman interviews more than thirty leaders in the field of architecture about a constellation of ideas relating to housing and home The interviewees include Pritzker Prize winners Thom Mayne Richard Meier and Robert Venturi Pulitzer Prize winners Paul Goldberger and Tracy Kidder American Institute of Architects head Robert Ivy and legendary architects such as Denise Scott Brown Charles Gwathmey Kenneth Frampton and Robert A M Stern The American idea of home and the many types of housing that embody it launch lively wide ranging conversations about some of the most vital and important issues in architecture today The topics that Friedman and his interviewees discuss illuminate five overarching themes the functions and meanings of home history tradition and change in residential architecture activism sustainability and the environment cities suburbs and regions and technology innovation and materials Friedman frames the interviews with an extended introduction that highlights these themes and helps readers appreciate the common concerns that underlie projects as disparate as Katrina cottages and Frank Lloyd Wright Usonian houses Readers will come away from these thought provoking interviews with an enhanced awareness of the under the hood kinds of design decisions that fundamentally shape our ideas of home and the dwellings in which we live

The End of the Suburbs Leigh Gallagher, 2013-08-01 The government in the past created one American Dream at the expense of almost all others the dream of a house a lawn a picket fence two children and a car But there is no single American Dream anymore For nearly 70 years the suburbs were as American as apple pie As the middle class ballooned and single family homes and cars became more affordable we flocked to pre fabricated communities in the suburbs a place where open air and solitude offered a retreat from our dense polluted cities Before long success became synonymous with a private home in a bedroom community complete with a yard a two car garage and a commute to the office and subdivisions quickly blanketed our landscape But in recent years things have started to change An epic housing crisis revealed existing problems with this unique pattern of development while the steady pull of long simmering economic societal and demographic forces has culminated in a Perfect Storm that has led to a profound shift in the way we desire to live In The End of the Suburbs journalist Leigh Gallagher traces the rise and fall of American suburbia from the stately railroad suburbs that sprung up outside American cities in the 19th and early 20th centuries to current day sprawling exurbs where residents spend as much as four hours each day commuting Along the way she shows why suburbia was unsustainable from the start and explores the hundreds of new alternative communities that are springing up around the country and promise to reshape our way of life for the better Not all suburbs are going to vanish of course but Gallagher s research and reporting show the trends are undeniable Consider some of the forces at work The nuclear family is no more Our marriage and birth rates are steadily declining while the single person households are on the rise Thus the good schools and family friendly lifestyle the suburbs promised are increasingly unnecessary We want out of our cars As the price of oil

continues to rise the hours long commutes forced on us by sprawl have become unaffordable for many Meanwhile today's younger generation has expressed a perplexing indifference toward cars and driving Both shifts have fueled demand for denser pedestrian friendly communities Cities are booming Once abandoned by the wealthy cities are experiencing a renaissance especially among younger generations and families with young children At the same time suburbs across the country have had to confront never before seen rates of poverty and crime Blending powerful data with vivid on the ground reporting Gallagher introduces us to a fascinating cast of characters including the charismatic leader of the anti sprawl movement a mild mannered Minnesotan who quit his job to convince the world that the suburbs are a financial Ponzi scheme and the disaffected residents of suburbia like the teacher whose punishing commute entailed leaving home at 4 a m and sleeping under her desk in her classroom Along the way she explains why understanding the shifts taking place is imperative to any discussion about the future of our housing landscape and of our society itself and why that future will bring us stronger healthier happier and more diverse communities for everyone
