Odd Tribes Toward A Cultural Analysis Of White People:

Odd Tribes John Hartigan Jr.,2005-11-14 An ethnographic and theoretical account of the construction of whiteness through the study of the lives of white working class Americans Handbook of the Sociology of Racial and Ethnic Relations Hernan Vera,Joe R Feagin,2007-08-03 The study of racial and ethnic relations has become one of the most studied aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia Sociology is at the hub of the human sciences concerned with racial and ethnic relations Since this discipline is made of multiple paradigms and methodological orientations it has been able to make relevant contributions to disciplines ranging from individual psychology social psychology and psychiatry to economics anthropology linguistics cultural studies health care delivery and education **Governance and Multiculturalism** Catherine Koerner,Soma Pillay,2019-08-14 A key intervention in the growing critical literature on race this volume examines the social construction of race in contemporary Australia through the lenses of Indigenous sovereignty nationhood and whiteness Informed by insights from white Australians in rural contexts Koerner and Pillay attempt to answer how race shapes those who identify as white Australian how those who self identify thusly relate to the nation multiculturalism and Indigenous Sovereignties and how white Australians understand and experience their own racialized position and its privilege This insider perspective on the continuing construction of whiteness in Australia is analyzed and challenged through Indigenous Sovereign theoretical standpoints and voices Ultimately this investigation of the social construction of race not only extends conceptualizations of multiculturalism but also informs governance policy in the light of changing national identity **Doing Anthropology in Consumer Research** Patricia L Sunderland,Rita M Denny,2016-06-16 Doing Anthropology in Consumer Research is the essential guide to the theory and practice of conducting ethnographic research in consumer environments Patricia Sunderland and Rita Denny argue that while the recent explosion in the use of ethnography in the corporate world has provided unprecedented opportunities for anthropologists and other qualitative researchers this popularization too often results in shallow understandings of culture divorcing ethnography it from its foundations In response they reframe the field by re attaching ethnography to theoretically robust and methodologically rigorous cultural analysis The engrossing text draws on decades of the authors own eclectic research from coffee in Bangkok and boredom in New Zealand to computing in the United States using methodologies from focus groups and rapid appraisal to semiotics and visual ethnography Five provocative forewords by leaders in consumer research further push the boundaries of the field and challenge the boundaries of academic and applied work In addition to reorienting the field for academics and practitioners this book is an ideal text for students who are increasingly likely to both study and work in corporate environments **Race in the 21st Century** John Hartigan (Jr.),2015 What is the state of race relations in the U S Are we making progress toward ending racial discrimination and prejudice What exactly does race mean In Race in the 21st Century Ethnographic

Approaches Second Edition John Hartigan Jr takes an anthropological look at such questions by introducing students to the study of race through qualitative methods In the first text to take an explicitly ethnographic approach Hartigan summarizes and explains the current state of social science knowledge on race in the U S motivating students to think through essential questions about race in relation to their own lives In contrast with many texts Race in the 21st Century focuses not on essential differences between racial or ethnic groups but rather on the commonalities Hartigan concentrates on the particular contexts in which people actively engage and respond to racial meanings and identities In this way he encourages readers to think critically about the meaning of race The second edition of Race in the 21st Century features a new chapter Postracial America which examines contentious arguments about whether or how race still matters in the U S today It engages students fully in the important question of what postracial America might mean or look like

African Americans and Gentrification in Washington, D.C. Dr Sabiyha Prince, 2014-02-28 This book uses qualitative data to explore the experiences and ideas of African Americans confronting and constructing gentrification in Washington D C It contextualizes Black Washingtonians perspectives on belonging and attachment during a marked period of urban restructuring and demographic change in the Nation's Capital and sheds light on the process of social hierarchies and standpoints unfolding over time African Americans and Gentrification in Washington D C emerges as a portrait of a heterogeneous African American population wherein members define their identity and culture as a people informed by the impact of injustice on the urban landscape It presents oral history and ethnographic data on current and former African American residents of D C and combines these findings with analyses from institutional statistical and scholarly reports on wealth inequality shortages in affordable housing and rates of unemployment Prince contends that gentrification seizes upon and fosters uneven development vulnerability and alienation and contributes to classed and racialized tensions in affected communities in a book that will interest social scientists working in the fields of critical urban studies and urban ethnography

African Americans and Gentrification in Washington D C will also invigorate discussions of neoliberalism critical whiteness studies and race relations in the 21st Century **African Americans and Gentrification in Washington, D.C.** Sabiyha Prince, 2016-03-03 This book uses qualitative data to explore the experiences and ideas of African Americans confronting and constructing gentrification in Washington D C It contextualizes Black Washingtonians perspectives on belonging and attachment during a marked period of urban restructuring and demographic change in the Nation s Capital and sheds light on the process of social hierarchies and standpoints unfolding over time African Americans and Gentrification in Washington D C emerges as a portrait of a heterogeneous African American population wherein members define their identity and culture as a people informed by the impact of injustice on the urban landscape It presents oral history and ethnographic data on current and former African American residents of D C and combines these findings with analyses from institutional statistical and scholarly reports on wealth inequality shortages in affordable housing and rates of unemployment Prince contends that gentrification seizes upon and fosters uneven development vulnerability and alienation and contributes to classed and racialized tensions in affected communities in a book that will interest social scientists working in the fields of critical urban studies and urban ethnography African Americans and Gentrification in Washington D C will also invigorate discussions of neoliberalism critical whiteness studies and race relations in the 21st Century **Dear Appalachia** Emily Satterwhite, 2011-10-01 Much criticism has been directed at negative stereotypes of Appalachia perpetuated by movies television shows and news media Books on the other hand often draw enthusiastic praise for their celebration of the simplicity and authenticity of the Appalachian region Dear Appalachia Readers Identity and Popular Fiction since 1878 employs the innovative new strategy of examining fan mail reviews and readers geographic affiliations to understand how readers have imagined the region and what purposes these imagined geographies have served for them As Emily Satterwhite traces the changing visions of Appalachia across the decades from the Gilded Age 1865 1895 to the present she finds that every generation has produced an audience hungry for a romantic version of Appalachia According to Satterwhite best selling fiction has portrayed Appalachia as a distinctive place apart from the mainstream United States has offered cosmopolitan white readers a sense of identity and community and has engendered feelings of national and cultural pride Thanks in part to readers faith in authors as authentic representatives of the regions they write about Satterwhite argues regional fiction often plays a role in creating and affirming regional identity By mapping the geographic locations of fans Dear Appalachia demonstrates that mobile white readers in particular including regional elites have idealized Appalachia as rooted static and protected from commercial society in order to reassure themselves that there remains an authentic America untouched by global currents Investigating texts such as John Fox Jr s The Trail of the Lonesome Pine 1908 Harriette Arnow s The Dollmaker 1954 James Dickey s Deliverance 1970 and Charles Frazier s Cold Mountain 1997 Dear Appalachia moves beyond traditional studies of regional fiction to document the functions of these narratives in the lives of readers revealing

not only what people have thought about Appalachia but why **Nationalism's Bloody Terrain** George Baca, 2006-05-01
As many scholars have argued racism and its passions are created by and subordinated to the nation This volume places the practices of racism at the center of analysis of so called post racist or multi cultural nation states This way each contributor analytically treats racism and its related concepts of race identity culture and naturalizing symbols of blood to highlight the manner in which governing institutions use nationalist precepts to create races In the end it is racism the actual political practices of domination that makes race salient especially in its multi cultural and liberal democratic form
