Political Economy and Liberalism in France Robert Leroux, 2011-03-04 The purpose of this book is to provide a comprehensive analysis of the work of Frédéric Bastiat 1801-1850 one of the towering intellectual figures of nineteenth century France. More than anyone else of his time Bastiat personified the struggle of liberalism and science against socialism and utopia. Between 1844 and 1850 his campaign for the idea of liberty and his commitment to the discipline of political economy made him one of the most vigorous champions of economic liberalism in France. Bastiat put forth one of the most ambitious interpretations of the liberalism of his time one that entailed both a critique of primitive socialism and a concern to provide political economy with a theoretical foundation. His thinking is far more sophisticated than would appear at first glance. Nor can it be confined as so many commentators would have us believe to its strictly economic dimension. The themes that Bastiat addressed free trade competition labour among others certainly helped to reduce it to this dimension. Yet he did not limit himself to these issues even if he dealt with them at length. He also paid close attention to the political moral social and religious dimensions. Coming as Bastiat's writing did at a decisive moment in the history of French liberalism the very existence of his work explodes the long standing received idea to the effect that liberalism and in particular economic liberalism is the exclusive domain of Anglo Saxon countries. Bastiat's work thus offers a solid rebuttal to Hayek who proclaimed the total absence of a liberal tradition in France. This book should be of interest to students and researchers of many strands of economics as well as those looking at French liberalism and the history of social science more generally.

Free Trade and its Enemies in France, 1814-1851 David Todd, 2015-04-30 In the aftermath of the French Revolution advocates of protection against foreign competition prevailed in a fierce controversy over international trade. This groundbreaking study is the first to examine this protectionist turn in full. Faced with a reaffirmation of mercantile jealousy under the Bourbon Restoration Benjamin Constant Jean Baptiste Say and regional publicists advocated the adoption of the liberty of commerce in order to consolidate the new liberal order. But after the Revolution of 1830 a new generation of liberal thinkers endeavoured to reconcile the jealousy of trade with the discourse of commercial society and political liberty. New justifications for protection oscillated between an industrialist reinvention of jealousy and an aspiration to self sufficiency as a means of attenuating the rise of urban pauperism. A strident denunciation of British power and social imbalances served to defuse the internal tensions of the protectionist discourse and facilitated its dissemination across the French political spectrum.

Selected Letters of Vernon Lee, 1856-1935 Sophie Geoffroy, Amanda Gagel, 2024-02-21 Vernon Lee was the pen name of Violet Paget a prolific author best known for her supernatural fiction her support of the Aesthetic Movement and her radical polemics. She was an active

Richard Cobden 1804-65 rose from humble beginnings to become the leading advocate of nineteenth century free trade and liberalism As a fierce opponent of the Corn Laws and promoter of international trade he rapidly became an influential figure on the national stage whose name became a byword for political and economic reform Yet despite the familiarity with which contemporaries and historians refer to Cobdenism his ideals and beliefs are not always easy to identify and classify in a coherent way Indeed as this volume makes clear the variety diversity and malleability of the Cobdenite project attest to the lack of a strict dogma and highlight Cobden's underlying pragmatism Divided into five sections this collection of essays offers a timely reassessment of Cobden's career its impact and legacy in the two hundred years since his birth Beginning with an investigation into the intellectual and cultural background to his emergence as a national political figure the volume then looks at Cobden's impact on the making of Victorian liberal politics The third section examines Cobden's wider influence in Europe particularly the impact of his tour of 1846-47 which was in many ways a defining moment not only in the making of Cobden's liberalism but in the making of liberal Europe Section four broadens the theme of Cobden's contemporary impact including his contribution to the debate on peace internationalism and the American Civil War whilst the final section opens up the theme of Cobden's contested legacy the variety of interpretations of Cobden's ideas and their influence on late nineteenth and twentieth century politics Offering a broad yet coherent investigation of the Cobdenite project by leading international scholars this volume provides a fascinating insight into one of the nineteenth century's most important figures whose ideas still resonate today **OEuvres complètes de Frédéric Bastiat: Sophismes économiques.
