Empire and Politics in the Eastern and Western Civilizations Andrea Balbo,Jaewon Ahn,Kihoon Kim,2022-08-22 The volume includes the proceedings of the 2nd Roma Sinica project conference held in Seoul in September 2019 and aims to compare some features of the ancient political thought in the Western classical tradition and in the Eastern ancient thought The contributors coming from Korea Europe USA China Japan propose new patterns of interpretation of the mutual interactions and proximities between these two cultural worlds and offer also a perspective of continuity between contemporary and ancient political thought Therefore this book is a reference place in the context of the comparative research between Roman and early Greek thought and Eastern thought Researchers interested in Cicero Seneca Plato post Platonic and post Aristotelic philosophical schools history ancient Roman and Chinese languages could find interesting materials in this work

Bully of Asia Steven W. Mosher,2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China s will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The naive idealism of our China hands has lulled America into a fool s dream of engagement with the People s Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China s overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime s crushing retaliation His encyclopedic grasp of China s history and its present day politics his astute insights and his bracing realism are the perfect antidote for our dangerous confusion about the Bully of Asia

The Construction of Corporate Identities by Chinese and American Airlines on Social Media Ying Hua,2024-10-17 Using top Chinese and American airlines as examples this book approaches the construction of corporate identities on social media

a critical issue in corporate communication from a cross cultural multimodal perspective Through a holistic and systematic multimodal analysis it provides a comprehensive cross cultural understanding of corporate identity construction on social media By developing an integrated social semiotic framework based on registerial cartography in SFL it investigates the airlines registerial activity patterns in terms of macro level configuration and micro level multimodal realizations interprets their situated contextual patterns that delineate the construction of corporate identities and further explains the influence of cultural factors Given that this book offers theoretical contributions to corporate identity and cross cultural communication research practical guidance on PR practices especially in the context of Chinese enterprises going global and pedagogical insights for business communication courses this book will be of particular benefit to researchers in linguistics management and communication studies PR practitioners and both lecturers and learners of business communication courses Chinese Macrosecuritization Juha A. Vuori,2023-11-10 This book provides a holistic picture of Chinese global security discourses with a focus on macrosecritizations The work examines how the People s Republic of China PRC has aligned itself within global security discourses This is approached through the theory of securitization specifically by using the notion of macrosecritization as the lens for its analysis The book offers the first full account of Chinese macrosecritization discourses and alignments and it aims to discern what security speech with referent objects such as humanity civilization or nature has done in the domestic and international politics of China Specifically the work focuses on the discourses of the Cold War anti nuclear weapons climate change and the Global War on Terror which have all been postulated in the literature as macrosecritizations In addition it examines discourses with global referent objects that have been put forth by the PRC so that we can see whether its proposals for global security governance take the form of or are legitimated through macrosecritization The overall argument in the book is that the way contemporary China uses macrosecritization discourses provides for ontological security as its position in relation to other major powers is undergoing transformation by allowing it to maintain a consistent narrative of its international self that abides by its own set of moral values and sense of worth This book will be of interest to students of critical security studies Chinese politics and International Relations The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution NonCommercial ShareAlike CC BY NC SA 4 0 International Handbook of Contemporary Behavioral Economics Morris Altman,2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of how economic decisions are actually made **China & Asia (exclusive of Near East)** United States.
