

OF THE Flesh

DANGEROUS NEW FICTION

Edited by Greg Wharmer

Of The Flesh Dangerous New Fiction

Emmanuel S. Nelson

Of The Flesh Dangerous New Fiction:

Of the Flesh Greg Wharton, 2001 New erotic fiction by Lawrence Ytzhak Braithwaite Simon Sheppard Ian Phillips and many more The New Orleans of Fiction James A. Kaser, 2014-07-29 The importance of New Orleans in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians While databases of bibliographical information on New Orleans centered fiction are available they are of little use to scholars researching works written before the 1980s In The New Orleans of Fiction A Research Guide James A Kaser provides detailed synopses for more than 500 works of fiction significantly set in New Orleans and published between 1836 and 1980 The synopses include plot summaries names of major characters and an indication of physical settings An appendix provides bibliographical information for works dating from 1981 well into the 21st century while a biographical section provides basic information about the authors some of whom are obscure and would be difficult to find in other sources Written to assist researchers in locating works of fiction for analysis the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies i e class ethnicity gender immigrant experience and race The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading particularly since genre juvenile and young adult fiction as well as literary fiction are included **Encyclopedia of Contemporary LGBTQ Literature of the United States**

Emmanuel S. Nelson, 2009-07-14 In this two volume work hundreds of alphabetically arranged entries survey contemporary lesbian gay bisexual transgendered and queer American literature and its social contexts Comprehensive in scope and accessible to students and general readers Encyclopedia of Contemporary LGBTQ Literature of the United States explores contemporary American LGBTQ literature and its social political cultural and historical contexts Included are several hundred alphabetically arranged entries written by expert contributors Students of literature and popular culture will appreciate the encyclopedia's insightful survey and discussion of LGBTQ authors and their works while students of history and social issues will value the encyclopedia's use of literature to explore LGBTQ American society Each entry is written by an expert contributor and lists additional sources of information To further enhance study and understanding the encyclopedia closes with a selected general bibliography of print and electronic resources for student research

Rebel Yell 2 Jay Quinn, 2002 Following the best selling original collection of short fiction by and about Southern gay men **REBEL YELL 2** continues the excitement with noted authors such as Felice Picano Robin Lippincott Kelly McQuain and more to create another vivid and compelling short fiction anthology exploring the diverse lives of Southern gay men The Concrete Sky Marshall Moore, 2003 Sparks fly but there are questions about Jonathan's involvement in the

deaths of two other patients The police are involved and nothing is what it seems You'll never look at your Prozac or your passport the same way again **BOOK JACKET 105 Esoteric Traditions of the World — Book II: Forbidden Paths and Dangerous Teachings of the Hidden Orders: Cathars, Yezidis, Sethian Gnostics, Aghori, Left-Hand Tantra, Taoist**

Thunder Magic, Umbanda, Vodou, Qalandari Sufis, Mazatec Mushroom Path Laing Z. Matthews, 2025-09-20 Not all sacred knowledge is safe Some teachings have been silenced outlawed or forced into disguise not because they are false but because they overturn the structures of control Dangerous Teachings gathers fifteen lineages whose survival has depended on secrecy exile and the courage of those willing to carry wisdom that could not be spoken aloud Across continents and centuries these traditions have been branded as heresy magic or madness Yet within them lie precise spiritual technologies ways of seeing healing and awakening that confront the deepest fears of empire orthodoxy and conformity This is not sensationalism It is the reality of what happens when the sacred refuses to bow to power In these pages you will meet visionaries ascetics and mystics who kept the thread alive under threat of prison exile or death Native American Church peyote roadmen keeping the night fire through prohibition Romani dream readers decoding fate under centuries of persecution Siberian dreamwalkers retrieving lost souls when the state outlawed shamanism Dagara diviners in West Africa speaking with elements and ancestors against the tide of colonial erasure Kalachakra adepts preserving the Wheel of Time tantra through the destruction of Tibet Forest Theravada monks disappearing into wilderness to escape religious bureaucracy Essene breath mystics whose desert rites survived in fragments Golden Dawn adepts using ritual as a science of transformation not spectacle Assyrian Christian mystics guarding the Aramaic breath of Christ through genocide Each chapter follows the same initiatory pattern the core teaching of the tradition the spiritual condition it addresses its inner technology of practice its symbol or image and the key danger it faces whether distortion commodification or outright destruction Every section closes with a living practice the reader can try and an image or parable to seal the teaching in memory Dangerous Teachings is not a handbook for dabblers It is a map for those who understand that real wisdom demands responsibility and sometimes risk This is not the marketplace version of spirituality stripped of its teeth It is the unsoftened unlicensed transmission of currents that have survived precisely because they refused to be made safe Volume II continues the work begun in Guardians of the First Flame shifting from primordial traditions to those forced underground by direct suppression Together the seven volumes of Esoteric Traditions of the World form an ark of memory rescuing not just facts but the living essence of ways of knowing that might otherwise vanish If you read this book you step into that ark You take on a share of the responsibility to remember And perhaps if the time comes to pass the fire on Novel Medicine Andrew Schonebaum, 2016-04-01 By examining the dynamic interplay between discourses of fiction and medicine Novel Medicine demonstrates how fiction incorporated created and disseminated medical knowledge in China beginning in the sixteenth century Critical readings of fictional and medical texts provide a counterpoint to prevailing narratives that focus only on the literati aspects of the novel showing that these texts were not merely read but were used by a wide variety of readers for a range of purposes The intersection of knowledge fictional and real elite and vernacular illuminates the history of reading and daily life and challenges us to rethink the nature of Chinese literature **Dangerous Digestion** E. Melanie DuPuis, 2015-12

Throughout American history ingestion eating has functioned as a metaphor for interpreting and imagining this society and its political systems Discussions of American freedom itself are pervaded with ingestive metaphors of choice what to put in and control what to keep out From the country s founders to the abolitionists to the social activists of today those seeking to form and reform American society have cast their social change goals in ingestive terms of choice and control But they have realized their metaphors in concrete terms as well purveying specific advice to the public about what to eat or not These conversations about social change as eating reflect American ideals of freedom purity and virtue Drawing on social and political history as well as the history of science and popular culture *Dangerous Digestion* examines how American ideas about dietary reform mirror broader thinking about social reform Inspired by new scientific studies of the human body as a metabiome a collaboration of species rather than an isolated intact protected and bounded individual E Melanie DuPuis invokes a new metaphor digestion to reimagine the American body politic opening social transformations to ideas of mixing fermentation and collaboration In doing so the author explores how social activists can rethink politics as inclusive processes that involve the inherently risky mixing of cultures standpoints and ideas *The Road of Danger, Guilt, and Shame* Carol Efrati, 2002 The commentaries of other critics are taken into account but the author also presents her own explications based on her close reading and wide knowledge of literature BOOK JACKET Science Fiction Roger Luckhurst, 2005-05-06 In this new and timely cultural history of science fiction Roger Luckhurst examines the genre from its origins in the late nineteenth century to its latest manifestations The book introduces and explicates major works of science fiction literature by placing them in a series of contexts using the history of science and technology political and economic history and cultural theory to develop the means for understanding the unique qualities of the genre Luckhurst reads science fiction as a literature of modernity His astute analysis examines how the genre provides a constantly modulating record of how human embodiment is transformed by scientific and technological change and how the very sense of self is imaginatively recomposed in popular fictions that range from utopian possibility to Gothic terror This highly readable study charts the overlapping yet distinct histories of British and American science fiction with commentary on the central authors magazines movements and texts from 1880 to the present day It will be an invaluable guide and resource for all students taking courses on science fiction technoculture and popular literature but will equally be fascinating for anyone who has ever enjoyed a science fiction book
