Philosophy In A Feminist Voice:

Philosophy in a Feminist Voice Janet A. Kourany, 1997-12-29 In this book Janet Kourany offers an antidote to the pervasive and pernicious strains in Western philosophy that discount women Most areas of Western philosophy tend not only to ignore women but also to perpetuate long standing antifeminine biases of the society as a whole It does not have to be this way Rather than be part of the problem philosophy can be a powerful force for much needed social change In this collection of essays by some of the most noted feminist philosophers Kourany showcases ideas on the newest work of Western philosophy that is benefiting women as well as men Included here are articles by Eileen O'Neill Louise Antony Virginia Held Susan Okin Carolyn Korsmeyer Nancy Frankenberry Lorraine Code Janet Kourany Andrea Nye and Susan Bordo all of whom show further directions in which philosophy ought to proceed This book demonstrates that feminist philosophy is not a separate area of philosophy that can safely be ignored by philosophers not in it Rather it relates to at least most of the major areas of philosophy and its gains will stand to benefit all philosophers no matter what their field **Philosophy in a**

Feminist Voice, 1998-01-01 **Women's Voices in Philosophy: Uncovering Hidden Narratives** Pasquale De Marco, 2025-03-23 In a world dominated by traditional philosophical narratives this book amplifies the voices of women philosophers challenging the status quo and reimagining the very nature of philosophical inquiry Through a collection of essays by leading women philosophers this book uncovers the hidden histories of women in philosophy shedding light on their groundbreaking ideas and challenging traditional narratives Exploring the epistemic injustice faced by women philosophers this book examines the barriers they have encountered and the ways in which their work has been marginalized It delves into the unique challenges faced by women of color in philosophy unveiling the complexities of intersectionality and its impact on philosophical thought Furthermore this book redefines the scope and purpose of philosophy itself embracing diverse perspectives and methodologies to create a more inclusive and representative philosophical landscape It explores alternative epistemologies and challenges traditional assumptions reimagining the possibilities of philosophical inquiry and its relevance to pressing social issues The essays in this book cover a wide range of topics from ethics and aesthetics to metaphysics and epistemology They examine the power of intersectionality in unraveling the complexities of identity the importance of care and compassion in ethical decision making and the need to rethink traditional notions of beauty and truth This book is a call for a more just and equitable philosophical community one that values diversity promotes pluralism and encourages open dialogue It is a testament to the resilience and brilliance of women philosophers throughout history and a celebration of their contributions to the pursuit of knowledge and understanding By bringing together the voices of women philosophers from different backgrounds and perspectives this book aims to transform the philosophical landscape making it more inclusive diverse and representative of the world we live in If you like this book write a review *Philosophy, Feminism, and Faith* Ruth E. Where Are the Women? Sarah Tyson, 2018-10-16 Philosophy has not just excluded women It has also been shaped by the exclusion of women As the field grapples with the reality that sexism is a central problem not just for the demographics of the field but also for how philosophy is practiced many philosophers have begun to rethink the canon Yet attempts to broaden European and Anglophone philosophy to include more women in the discipline s history or to acknowledge alternative traditions will not suffice as long as exclusionary norms remain in place In *Where Are the Women* Sarah Tyson makes a powerful case for how redressing women s exclusion can make philosophy better She argues that engagements with historical thinkers typically afforded little authority can transform the field outlining strategies based on the work of three influential theorists Genevieve Lloyd Luce Irigaray and Mich le Le Doeuff Following from the possibilities they open up at once literary linguistic psychological and political Tyson reclaims two passionate nineteenth century texts the Declaration of Sentiments from the 1848 Seneca Falls Convention and Sojourner Truth s speech at the 1851 Akron Ohio Women s Convention showing how the demands for equality rights and recognition sought in the early women s movement still pose quandaries for contemporary philosophy feminism and politics *Where Are the Women* challenges us to confront the reality that women s exclusion from philosophy has been an ongoing project and to become more critical both of how we see existing injustices and of how we address them

African Philosophy and the Epistemic Marginalization of Women Jonathan Chimakonam, Louise du Toit, 2018-04-20 This book examines the underexplored notion of epistemic marginalization of women in the African intellectual place Women's issues are still very much neglected by governments corporate bodies and academics in sub Saharan Africa The entrenched traditional world views which privilege men over women make it difficult for the modern day challenges posed by the neglect of the feminine epistemic perspective to become obvious Contributors address these issues from both theoretical and practical perspectives demonstrating what philosophy could do to ameliorate the epistemic marginalization of women as well as ways in which African philosophy exacerbates this marginalization Philosophy is supposed to teach us how to lead the good life in all its ramifications why is it failing in this duty in Africa where the issue of women's epistemic vision is concerned The chapters raise feminist agitations to a new level beginning from the regular campaigns for various women's rights and reaching a climax in an epistemic struggle in which the knowledge controlling power to create acquire evaluate regulate and disseminate is proposed as the last frontier of feminism
