Photography Christian Voigt:

Christian Voigt, 2015 The subjects Christian Voigt photographs are incredibly diverse a tattoo studio in Buenos Aires is at home in his repertoire next to New York's Morgan Library while an enchanting landscape in Myanmar is juxtaposed with the clean lines of Amsterdam's Rijksmuseum He uses analogue and digital large format cameras to create the desired effect of a greatly condensed image And although the result generally gets a digital fine tuning Voigt stresses that he develops his unique visual language with his camera not a computer Intense artificial colour and imposing formats such as his museum series with images that are eight meters wide make viewers gape in awe and wonder Voigt travels the world searching for interesting stories which he then retells for us most impressively in his series of photographs

AUTHOR Christian Voigt was born in Munich and later moved to Hamburg where he currently lives and works Since his first show in 2009 he has had solo exhibitions in Basel Hamburg New York Los Angeles London Saint Tropez Amsterdam and Madrid His oversize works have garnered top honours from a steadily growing number of collectors and admirers

SELLING POINTS Expressive photos that depict an exaggerated reality Photographic stories with a unique intensity of depth and colour People and places captured with pictorialised concentration 150 colour

The Life of August Wilhelm Schlegel, Cosmopolitan of Art and Poetry Roger Paulin, 2016-02-01 This is the first full scale biography in any language of a towering figure in German and European Romanticism August Wilhelm Schlegel whose life 1767 to 1845 coincided with its inexorable rise As poet translator critic and oriental scholar Schlegel's extraordinarily diverse interests and writings left a vast intellectual legacy making him a foundational figure in several branches of knowledge He was one of the last thinkers in Europe able to practise as well as to theorise and to attempt to comprehend the nature of culture without being forced to be a narrow specialist With his brother Friedrich for example Schlegel edited the avant garde Romantic periodical *Athenaeum* and he produced with his wife Caroline a translation of Shakespeare the first metrical version into any foreign language Schlegel's Lectures on Dramatic Art and Literature were a defining force for Coleridge and for the French Romantics But his interests extended to French Italian Spanish and Portuguese literature as well to the Greek and Latin classics and to Sanskrit August Wilhelm Schlegel is the first attempt to engage with this totality to combine an account of Schlegel's life and times with a critical evaluation of his work and its influence Through the study of one man's rich life incorporating the most recent scholarship theoretical approaches and archival resources while remaining easily accessible to all readers Paulin has recovered the intellectual climate of Romanticism in Germany and traced its development into a still potent international movement The extraordinarily wide scope and variety of Schlegel's activities have hitherto acted as a barrier to literary scholars even in Germany In Roger Paulin whose career has given him the knowledge and the experience to grapple with such an ambitious project Schlegel has at last found a worthy exponent

Smith,2016-11-11 Eve tempting Adam with the apple Delilah shearing Samson s hair Phyllis riding the philosopher Aristotle like a horse from the patristic period through the sixteenth century examples of disorderly women such as these from the Bible antiquity and romance were cited to prove beyond any doubt that women exercise a power that no man however superior his moral and physical qualities can resist An example of Latin topica loci or loci communes central to ancient rhetoric and medieval literature the Power of Women topos illustrated how a woman could dominate humiliate and even destroy the man who loved her too well Two or more infamous female figures were brought together to exemplify a cluster of interrelated themes the wiles of women the power of love and the trials of marriage Susan L. Smith s comprehensive study of the Power of Women topos in written texts and in art emphasizes the critical phase of its development from the late twelfth to the end of the fourteenth century During this period she argues traditional employment of the topos exclusively to condemn women and justify male authority underwent a dramatic shift as new voices some of them female voices appropriated the Power of Women to contest and relativize the misogynistic views it had been created to promote The Power of Women analyzes the topos s shifting operations in the context of ancient and medieval theories of rhetoric particularly with respect to the practice of exemplification which presuppose the possibility of conflicting judgments on disputed topics Smith further supports her argument by reference to a wide range of recent theoretical writings by Mikhail Bakhtin and others
