Philosophy And The Mixed Race Experience Philosophy Of Race:

Philosophy and the Mixed Race Experience Tina Fernandes Botts, 2016-01-21 *Philosophy and the Mixed Race Experience* is a collection of essays by philosophers about the mixed race experience. Each essay is meant to represent one of three possible things: 1) what the philosopher sees as the philosopher's best work; 2) evidence of the possible impact of the philosopher's mixed race experience on the philosopher's work; or 3) the philosopher's philosophical take on the mixed race experience. The book has two primary goals: 1) to collect together for the first time the work of professional academic philosophers who have had the mixed race experience; and 2) to bring these essays together for the purpose of adding to the conversation on the question of the degree to which factual identity and philosophical work may be related. The book also examines the possible relationship between the mixed race experience and certain philosophical positions. **Philosophy and the Mixed Race Experience**

Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct but we think complementary traditions: the philosophical engagement with race, whiteness, and Buddhist philosophy in order to explore the ways in which these traditions can inform and improve each other. This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in understanding race and whiteness with the help of Buddhist philosophy and in understanding Buddhist philosophy with the help of philosophy of

race and theorizations of whiteness We expand upon a small but growing body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U S culture Buddhist philosophy has much to contribute to furthering our understanding of whiteness and racial identity the mechanisms that create and maintain white supremacy and the possibility of dismantling white supremacy We are interested both in the possible insights that Buddhist metaphysical epistemological and ethical analyses can bring to understanding race and whiteness as well as the potential limitations of such Buddhist inspired approaches In their chapters contributors draw on Buddhist philosophical and contemplative traditions to offer fresh insightful and powerful perspectives on issues regarding racial identity and whiteness including such themes as cultural appropriation mechanisms of racial injustice and racial justice phenomenology of racial oppression epistemologies of racial ignorance liberatory practices with regard to racism Womanism and the intersections of gender based raced based and sexuality based oppressions Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions These include various Asian traditions including Theravada Mahayana Tantra and Zen as well as comparatively new American Buddhist traditions

A Phenomenological Hermeneutic of Antiracist Racism in The Autobiography of Malcolm X David Polizzi, 2019-06-04 This text provides a phenomenological account of the experience of anti black racism as described by Malcolm X Central to this analysis is the phenomenology that emerges over the course of Malcolm s life which emerges through the various personal transformations that the autobiography introduces and explores As this process unfolds a variety of different aspects of lived experience can be witnessed that becomes situated within the process of naming that Malcolm employs to situate the specifics of his experience For example the phenomenology of Malcolm s early childhood experience is defined by two very different competing definitions for blackness Though Malcolm Little and his family exist or find themselves thrown within a social structure that employs a narrative of anti black racism his parents are able to provide a powerful alternative meaning for blackness that is informed by the perspective taken from the Marcus Garvey Movement of the early 1900s When that narrative is effectively silenced given Malcolm s separation from his family the positive meanings for black being in the world disappear and leave Malcolm with few alternatives to this new reality As the Autobiography moves forward Malcolm s experience becomes defined by the phenomenology that these overlapping narratives construct During certain moments of this phenomenology the negative aspects of anti black racism seem to impose very specific challenges to Malcolm s lived experience that become difficult to overcome and in others powerful alternative meanings for black being in the world are taken up and successfully employed to address the consequences of this type of racism Though the fact of anti black racism is never actually defeated Malcolm s relationship to this process is drastically transformed over the course of his reflection

Critical Philosophy of Race Robert Bernasconi, 2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn Genealogies of the concepts of both race and

racism clarify why some of the dominant strategies for combatting racism tend to be ineffective For example the Boasian UNESCO strategy that highlights biology's rejection of race neglects cultural racism Drawing on the work of Frantz Fanon the late Sartre and Michel Foucault Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional structural and systemic racism His philosophical studies of such Black philosophers as Ottobah Cugoana Antenor Firmin and W E B Du Bois contribute to challenging the dominant philosophical canon This volume will be an essential resource for scholars and students interested in this resurgent topic

Philosophy in Multiple Voices George Yancy, 2007-08-05 Philosophy in Multiple Voices invites transactional dialogue critical imagination and the desire to travel to enter those discursive spaces where the love of wisdom gets inflected through both lived embodiment and situational history The text raises significant meta philosophical questions around the issue of who constitutes the philosophical we through a delineation and valorization of multiple philosophical voices African American Afro Caribbean Asian American Feminist Latin American Lesbian Native American and Queer that set forth complex concerns around canon formation the relationship between philosophical discursive configurations and issues of gendered sexed racial and ethnic identities the dynamic of shifting philosophical historical trajectories differential philosophical visions sensibilities and philosophical praxes that are still largely underrepresented within the institutional confines of mainstream philosophy The text encourages philosophical heterogeneity as a value that ought to be nurtured The Routledge Companion to the Philosophy of Race Paul Taylor, Linda Alcoff, Luvelle Anderson, 2017-11-28 For many decades race and racism have been common areas of study in departments of sociology history political science English and anthropology Much more recently as the historical concept of race and racial categories have faced significant scientific and political challenges philosophers have become more interested in these areas This changing understanding of the ontology of race has invited inquiry from researchers in moral philosophy metaphysics epistemology philosophy of science philosophy of language and aesthetics The Routledge Companion to Philosophy of Race offers in one comprehensive volume newly written articles on race from the world's leading analytic and continental philosophers It is however accessible to a readership beyond philosophy as well providing a cohesive reference for a wide student and academic readership The Companion synthesizes current philosophical understandings of race providing 37 chapters on the history of philosophy and race as well as how race might be investigated in the usual frameworks of contemporary philosophy The volume concludes with a section on philosophical approaches to some topics with broad interest outside of philosophy like colonialism affirmative action eugenics immigration race and disability and post racialism By clearly explaining and carefully organizing the leading current philosophical thinking on race this timely collection will help define the subject and bring renewed understanding of race to students and researchers in the humanities social science and sciences Critical Mixed Race Philosophy Sabrina L. Hom, 2025-03-24 Critical Mixed Race Philosophy Rethinking Kinship and Identity reimagines mixed race studies arguing that commonplace and widely accepted

ways of understanding mixedness are mired in outdated and essentialist assumptions about race biology and kinship Sabrina L Hom explores the intersection of race sex and sexuality and calls for a nuanced understanding of the politics of mixed race Commonplace narratives treat mixedness as something new and transformative but it is neither as promising nor as fearful as it may seem Instead the author draws on rich mixed race histories both to make the case that mixedness has always been a part of the racial landscape and to argue for a more dynamic understanding of race that reflects how frequently ambiguous bodies are incorporated into racial logic Drawing on feminist and queer theory Critical Mixed Race Philosophy articulates a non essentialist conception of mixed race identity and kinship that asks us to rethink what it means to be mixed and where mixed people fit into racial politics

Race Policy and Multiracial Americans Kathleen Odell Korgen, 2016-01-13 Race Policy and Multiracial Americans is the first book to look at the impact of multiracial people on race policies where they lag behind the growing numbers of multiracial people in the U S and how they can be used to promote racial justice for multiracial Americans Using a critical mixed race perspective it covers such questions as Which policies aimed at combating racial discrimination should cover multiracial Americans Should all or some multiracial Americans benefit from affirmative action programmes How can we better understand the education and health needs of multiracial Americans This much needed book is essential reading for sociology political science and public policy students policy makers and anyone interested in race relations and social justice
