Philosophy In Question Essays On A Pyrrhonian Theme:

Philosophy in Question David R. Hiley, 1988 *Jacques Derrida (Routledge Revivals)* William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work. It attempts to be comprehensive rather than selective, listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated. It arranges under article type a huge number of works from scholars across numerous fields, reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy.

Organized Worlds Robert Chia, 2003-09-02 *Organized Worlds* locates the study of organization within the wider area of social theory. It explores in detail the intricate relationships that exist between technology, representation and organization. The collection includes a chapter from the leading expert in the field, Robert Cooper, as well as an interview with him. Other contributors build upon and extend the findings of Cooper. This is a companion volume to *In the Realm of Organization*.

Richard Rorty Charles Guignon, David R. Hiley, 2003-07-28 Arguably the most influential of all contemporary English-speaking philosophers, Richard Rorty has transformed the way many inside and outside philosophy think about the discipline and the traditional ways of practicing it. The essays in this volume offer a balanced exposition and critique of Rorty's views on knowledge, language, truth, science, morality and politics. The introduction presents a valuable overview of Rorty's philosophical vision. Written by a distinguished roster of philosophers, it will appeal beyond philosophy to students in the social sciences, literary studies, cultural studies and political theory.

Doubt and the Demands of Democratic Citizenship David R. Hiley, 2006-06-26 The triumph of democracy has been heralded as one of the greatest achievements of the twentieth century, yet it seems to be in a relatively fragile condition in the United States if one is to judge by the proliferation of editorials, essays and books that focus on politics and distrust of government. *Doubt and the Demands of Democratic Citizenship* explores the reasons for public discontent and proposes an account of democratic citizenship appropriate for a robust democracy. David Hiley argues that citizenship is more than participating in the electoral process. It requires a capacity to participate in the deliberative process with other citizens who might disagree, a capacity that combines deep convictions with a willingness to subject those convictions. Hiley develops his argument by examining the connection between doubt and democracy generally, as well as through case studies of Socrates, Montaigne and Rousseau, interpreting them in light of contemporary issues.

The Possibility of Discussion Hugo Strandberg, 2016-03-03 Answering the question 'How is fruitful discussion possible?' this book addresses the central philosophical issue of how reason shall be understood and how it is limited. This study argues that the understanding of discussion according to which it necessarily starts from putative universal norms and rules for argumentation is problematic among other reasons since such rules are unfruitful in contexts where there are vast

disagreements such as religion Inspired by Wittgensteinian ideas Strandberg develops instead a new way of understanding discussion truth and rationality which escapes these problems and shows how this solution can be used to answer the accusation against Wittgensteinian philosophy for being conservative and resulting in fideism Feeling in Theory Rei Terada, 2009-07-01 Because emotion is assumed to depend on subjectivity the death of the subject described in recent years by theorists such as Derrida de Man and Deleuze would also seem to mean the death of feeling This revolutionary work transforms the burgeoning interdisciplinary debate on emotion by suggesting instead a positive relation between the death of the subject and the very existence of emotion Reading the writings of Derrida and de Man theorists often seen as emotionally contradictory and cold Terada finds grounds for construing emotion as nonsubjective This project offers fresh interpretations of deconstruction s most important texts and of Continental and Anglo American philosophers from Descartes to Deleuze and Dennett At the same time it revitalizes poststructuralist theory by deploying its methodologies in a new field the philosophy of emotion to reach a startling conclusion if we really were subjects we would have no emotions at all Engaging debates in philosophy literary criticism psychology and cognitive science from a poststructuralist and deconstructive perspective Terada s work is essential for the renewal of critical thought in our day **Reading the French Enlightenment** Julie Candler Hayes, 1999-07-15 In this 1999 book Julie Candler Hayes offers an ambitious reinterpretation of a crucial aspect of Enlightenment thought the rationalizing and classifying impulse Taking issue both with traditional liberal and contemporary critical accounts of the Enlightenment she analyses the writings of Denis Diderot Emilie Du Chatelet the Abbé de Condillac Buffon d'Alembert and numerous others to argue for a new understanding of systematic reason as complex paradoxical and ultimately liberating Hayes examines the tensions between freedom and constraint abstraction and materialism linear and synoptic order that pervade not only philosophic and scientific discourse but also epistolary writing fiction and criticism Drawing on the insights of a wide range of theorists from Adorno Habermas and Foucault to Deleuze and Derrida she offers a dialogue between the eighteenth century and our own an ongoing exploration of the question what is Enlightenment **The Sceptical Idealist** Roy Tseng, 2003 This is the first book length study to provide a structured interpretation of the significance of Michael Oakeshott s critique of the Enlightenment By seeing the thinker as a sceptical idealist posing a serious challenge to the intellectual positions informed by the Enlightenment this book attempts to resolve some of the issues debated by Oakeshott scholars The author argues that Oakeshott s famous critique of philosophisme and Rationalism in fact expresses a sense of the crisis of philosophical modernity Moreover notwithstanding some recent interpretations throughout his intellectual career Oakeshott has never altered his analysis of these two themes philosophy as the persistent re-establishment of completeness by transcending abstractness and the modes of experience as self-consistent worlds of discourse To apply this philosophy in his moral and political writings Oakeshott has redressed an imbalance in favour of the Enlightenment ethical position the sovereignty of technique demonstrative moral truth the politics of faith and enterprise

association by revitalising the importance of traditional knowledge conversation intimation the politics of scepticism and civil association Oakeshott is neither a doctrinal liberal nor a dogmatic conservative but a philosophical sceptic Moreover Oakeshott's contribution to history not only lies in his effort to transcend the Enlightenment historiographical position by separating the historical from the naturalised conception of History on which so called scientific history rests but also in his idealistic solution for the temporal dilemma and the epistemic tension in history that have long bothered philosophers

Critique of Violence Beatrice Hanssen, 2014-02-25 Critique of Violence is a highly original and lucid investigation of the heated controversy between poststructuralism and critical theory Leading theorist Beatrice Hanssen uses Walter Benjamin's essay Critique of Violence as a guide to analyse the contentious debate shifting the emphasis from struggle to dialogue between the two parties Regarding the questions of critique and violence as the major meeting points between both traditions Hanssen positions herself between the two in an effort to investigate what critical theory and poststructuralism have to offer each other In the course of doing so she assembles imaginative new readings of Benjamin Arendt Fanon and Foucault and incisively explores the politics of recognition the violence of language and the future of feminist theory This groundbreaking book will be essential reading for all students of continental philosophy political theory social studies and comparative literature Also available in this series Essays on Otherness Hb 0 415 13107 3 50 00 Pb 0 415 13108 1 15 99 Hegel After Derrida Hb 0 415 17104 4 50 00 Pb 0 415 17105 9 15 99 The Hypocritical Imagination Hb 0 415 21361 4 47 50 Pb 0 415 21362 2 15 99 Philosophy and Tragedy Hb 0 415 19141 6 45 00 Pb 0 415 19142 4 14 99 Textures of Light Hb 0 415 14273 3 42 50 Pb 0 415 14274 1 13 99 Very Little Almost Nothing Pb 0 415 12821 8 47 50 Pb 0 415 12822 6 15 99
