Philosophy Literature Truth Beauty Goodness Commitment:

Philosophy & Literature Cameron Thompson, Peter Thompson, 2001-06-24 Philosophy and Literature became a classic interdisciplinary study when it first appeared. It remained in print for 25 years and was used by both high school and college teachers. Now that interdisciplinary approaches are again highly valued, this anthology of philosophical ideas represented in great literature has made its way back into print. Poetry, plays, novels, and short stories are all included with a biography of each author. Four main selections are based on the Platonic ideas of truth, beauty, and goodness, with a section on commitment which has a modern relevance. Philosophical works introduce each literary section. There are many questions for students along with introductions to the thought of each philosopher. Plato, Aristotle, Descartes, and Kant are included, but most of the philosophers are from the 20th century, like most of the authors. Prominent American women are featured among the writers. This is a 600-page book which can easily serve as course material for a year or two semesters. It was designed for both strong high school and college students. It is ideal for General Education courses and is used at Roger Williams University for example this way. Many MySpace pages cite this book as My favorite book or My favorite pastime. School departments report we are married to this book.

Philosophy and Literary Modernism Robert P. McParland, 2018-10-01 Philosophy and Literary Modernism probes the relationship of authors with the thought of their time. The authors studied here include Conrad, Eliot, Faulkner, Forster, Hemingway, Hesse, Kafka, Joyce, Lawrence, Williams, and Woolf among others. Literary modernism engaged with explorations of literary form, language, ways of knowing, the world, identity, commitment, chance, truth, and beauty. The book considers how writers participated in the intellectual spirit of their time and with the thought of philosophers like Henri Bergson, G. E. Moore, Bertrand Russell, Alfred North Whitehead, and Ludwig Wittgenstein. Tragic Humanity and Hope Pius Ojara SJ, 2007-09-01 With insights into the thought of Gabriel Marcel, Tragic Humanity and Hope recognizes that in our age, scientific knowing is becoming a dominant form of knowledge. The leadership, influence, growth, and gravitational center of human existence depend on scientific knowledge. As a result, we live in an information age that prizes production and immediate satisfaction but devalues the cultivation of wisdom. We risk diminishing the significance of sapiential knowing to deal with the immensely complex and intricate domains of human relationality. Furthermore, inquiry into moral discernment methods expands, becoming more diverse, yet scholarly conversations that engage the vital exigencies as founding moral sensibility seem noticeably insufficient. Tragic Humanity and Hope strives to overcome this lack. But Ojara also seeks ethical groundings that exceed the language of pragmatic utility and aesthetic preference. Foundations of morality cannot exclude questions of the common good and shared moral obligations that free people to reach out to one another with hopes and memories that endow life with shared meaning. Through continuity and cohesion, that the interlacing of scientific, sapiential, and moral knowing bring life becomes a marvelous expression of light, joy, and fervor. **Living in Truth, Beauty, and Goodness** Jeffrey Wattles, 2016-07-21 Truth, beauty, and goodness are more than traditional ideas; they are living realities.

Morris Eames,Elizabeth Ramsden Eames,Richard W. Field,2003 Experience and Value Essays on John Dewey and Pragmatic Naturalism brings together twelve philosophical essays spanning the career of noted Dewey scholar S Morris Eames The volume includes both critiques and interpretations of important issues in John Dewey s value theory as well as the application of Eames s pragmatic naturalism in addressing contemporary problems in social theory education and religion The collection begins with a discussion of the underlying principles of Dewey s pragmatic naturalism including the concepts of nature experience and philosophic method Essays Experience and Philosophical Method in John Dewey and Primary Experience in the Philosophy of John Dewey develop what Eames believed to be a central theme in Dewey s thought and provide a theoretical framework for subsequent discussion The volume continues with specific applications of this framework in the areas of value theory moral theory social philosophy and the philosophy of religion Eames s analysis of value exposes the connection between the immediately felt values of experience and the more sophisticated judgments of value that are the product of reflection From this basis in moral theory Eames considers the derivation of judgments of obligation from judgments of fact This discussion provides a grounding for a consideration of contemporary social issues directed by naturalistic and scientific principles In the third section with regard to educational theory Eames considers possible resolutions of the current dichotomy between the factual worldview of science and the humanistic worldview of the liberal arts The comprehensive article Dewey s Views of Truth Beauty and Goodness connects the essays of the first and second sections and explores the placement of Dewey s value theory with respect to morals and aesthetics With Creativity and Democracy in the fourth section Eames also considers the concept of democracy from the standpoint of current and historical issues faced by society This article hints at a major project of Eames s intellectual life the theory of democracy The volume concludes with a discussion of the difficulty of maintaining the values of religious experience in a scientifically and technologically sophisticated world the very topic that first brought Eames to philosophy the meaning of religion and the religious life Suggested solutions are offered in The Lost Individual and Religious Unity Experience and Value Essays on John Dewey and Pragmatic Naturalism illuminates Eames life

of inquiry a life that included moral social aesthetic and religious dimensions of value all suffused with the influence of John Dewey English Journal, 1969 **Science, Faith, Society: New Essays on the Philosophy of Michael Polanyi** Péter Hartl, 2024-04-03 The book is arguably the first comprehensive collection of essays on Michael Polanyi's social political philosophy The essays combine philosophical and historical approaches to show Polanyi's social thought in the context of his epistemology and philosophy of science as well as the 20th century intellectual history This volume appeals to specialists in Michael Polanyi's philosophy political philosophers who are interested in the 20th century political thought mainly conservative liberal political tradition Furthermore it appeals to scholars focusing on the intersections between epistemology and political philosophy *Loneliness in Philosophy, Psychology, and Literature* Ben Lazare Mijuskovic, 2012-04-20 Drawing on the fields of psychology literature and philosophy *Loneliness in Philosophy Psychology and Literature* argues that loneliness has been the universal concern of mankind since the Greek myths and dramas the dialogues of Plato and the treatises of Aristotle Author Ben Lazare Mijuskovic whose insights are culled from both his theoretical studies and his practical experiences contends that loneliness has constituted a universal theme of Western thought from the Hellenic age into the contemporary period In *Loneliness in Philosophy Psychology and Literature* he shows how man has always felt alone and that the meaning of man is loneliness Presenting both a discussion and a philosophical inquiry into the nature of loneliness Mijuskovic cites examples from more than one hundred writers on loneliness including Erich Fromm Frieda Fromm Reichmann Clark Moustakas Rollo May and James Howard in psychology Thomas Hardy Joseph Conrad James Joyce Thomas Wolfe and William Golding in literature and Descartes Kant Kierkegaard Nietzsche and Sartre in philosophy Insightful and comprehensive *Loneliness in Philosophy Psychology and Literature* demonstrates that loneliness is the basic nature of humans and is an unavoidable condition that all must face *European Review* 21 2 May 2013 309 311 Ben Mijuskovic *Loneliness in Philosophy Psychology and Literature* Bloomington IN iUniverse 2012 Ben Lazare Mijuskovic offers in his book a very different approach to loneliness According to him far from being an occasional or temporary phenomenon loneliness or better the fear of loneliness is the strongest motivational drive in human beings He argues that following the replenishment of air water nourishment and sleep the most insistent and immediate necessity is man's desire to escape his loneliness to avoid the feeling of existential human isolation p xxx The Leibnizian image of the monadas a self enclosed windowless being gives an acute portrait of this oppressive prison To support this thesis Mijuskovic uses an interdisciplinary approach philosophy psychology and literature through which the picture of man as continually fighting to escape the quasi solipsistic prison of his frightening solitude reverberates Besides insisting on the primacy of our human concern to struggle with the spectre of loneliness Mijuskovic has sought to account for the reasons why this is the case The core of his argumentation relies on a theory of consciousness In Western thought three dominant models can be distinguished a the self consciousness or reflexive model b the empirical or behavioral model and c the intentional or phenomenological model

According to the last two models it is difficult if not inconceivable to understand how loneliness is even possible Only the theory that attributes a reflexive nature to the powers of the mind can adequately explain loneliness The very constitution of our consciousness determines our confinement When a human being successfully reflects on his self reflexively captures his own intrinsically unique situation he grasps self consciously the nothingness of his existence as a transcendental conditionuniversal necessary a prioristructuring his entire being in the world This originary level of recognition is the ground source for his sensory cognitive awareness of loneliness p 13 Silvana Mandolesi
