Photographic Theory An Historical Anthology:

Photographic Theory Andrew E. Hershberger, 2014-01-07 Hershberger is the winner of a 2015 Insight Award from the Society for Photographic Education for his work on this book and for his overall contributions to the field. Photographic Theory An Historical Anthology presents a compendium of readings spanning ancient times to the digital age that are related to the history, nature, and current status of debates in photographic theory. Offers an authoritative and academically up to date compendium of the history of photographic theory. Represents the only collection to include ancient, Renaissance, and 19th, 20th, and 21st century writings related to the subject. Stresses the drama of historical and contemporary debates within theoretical circles. Features comprehensive coverage of recent trends in digital photography. Fills a much needed gap in the existing literature. PHOTOGRAPHIC THEORY, 1963 *Seizing the Light* Robert Hirsch, 2017-04-07 The definitive history of photography book. *Seizing the Light: A Social Aesthetic History of Photography* delivers the fascinating story of how photography as an art form came into being and its continued development, maturity, and transformation. Covering the major events, practitioners' works, and social effects of photographic practice, Robert Hirsch provides a concise and discerning chronological account of Western photography. This fundamental starting place shows the diversity of makers, inventors, issues, and applications, exploring the artistic, critical, and social aspects of the creative process. The third edition includes up to date information about contemporary photographers like Cindy Sherman and Yang Yongliang and comprehensive coverage of the digital revolution, including the rise of mobile photography, the citizen as journalist, and the role of social media. Highly illustrated with full color images and contributions from hundreds of artists around the world, *Seizing the Light* serves as a gateway to the history of photography. Written in an accessible style, it is perfect for students newly engaging with the practice of photography and for experienced photographers wanting to contextualize their own work. *Four Arts of Photography* Dominic McIver Lopes, 2016-03-07 *Four Arts of Photography* explores the history of photography through the lens of philosophy and proposes a new scholarly understanding of the art form for the 21st century. Re-examines the history of art photography through four major photographic movements and with case studies of representative images. Employs a top down theory to case approach as well as a bottom up case to theory approach. Advances a new theory regarding the nature of photography that is grounded in technology but doesn't place it in opposition to painting. Includes commentaries by two leading philosophers of photography, Diarmuid Costello and Cynthia A. Freeland. **Laruelle and Art** Jonathan Fardy, 2019-11-14 Fran ois Laruelle emerged from the hallowed generation of French postwar philosophers that included luminaries such as Jacques Derrida, Gilles Deleuze, Luce Irigaray, and Jean Baudrillard, yet his thinking differs radically from that of his better known contemporaries. In *Laruelle and Art*, Jonathan Fardy provides the first academic monograph dedicated solely to Laruelle's unique contribution to aesthetic theory and specifically the non philosophical project he terms non aesthetics. This undertaking allows Laruelle to think about art outside the boundaries of standard philosophy, an approach

that Fardy explicates through a series of case studies By analysing the art of figures such as Julia Margaret Cameron Anish Kapoor Dan Flavin and James Turrell as well as the drama of Michael Frayn Fardy s new book enables new and experienced readers of Laruelle to understand how the philosopher s thinking can open up new vistas of art and criticism The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl,Emily Morris,2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement

Victorian Negatives Susan E. Cook,2019-07-01 *Victorian Negatives* examines the intersection between Victorian photography and literary culture and argues that the development of the photographic negative played an instrumental role in their confluence The negative is a technology that facilitates photographic reproduction by way of image inversion and Susan E Cook argues that this particular photographic technology influenced the British realist novel and literary celebrity culture as authors grappled with the technology of inversion and reproduction in their lives and works The book analyzes literary works by Charles Dickens Arthur Conan Doyle E W Hornung Cyril Bennett Robert Louis Stevenson Oscar Wilde Thomas Hardy and Bram Stoker and puts readings of those works into conversations with distinct photographic forms including the daguerreotype solarization forensic photography common cabinet cards double exposures and postmortem portraiture In addition to literary texts the book analyzes photographic discourses from letters and public writings of photographers and the nineteenth century press as well as discussions and debates surrounding Victorian celebrity authorship The book s focus on the negative both illuminates an oft marginalized part of the history of photography and demonstrates the way in which this history is central to Victorian literary culture *Culture and arts in the context of*

Subject and Structure Brandon Pelcher,2023-07-11 *Dada s Subject and Structure* argues that Dadaist praxis was far more theoretically incisive than previous scholarship has indicated The book combines theoretical frameworks surrounding ideological subject formation with critical media and genre histories in order to more closely read Dadaist techniques e g montage irony nonsense etc across multiple works These readings reveal both Dada s preternatural focus on the discursive aspects of subject formation linguistic sign literary manifesto photographic image commodity form aesthetics which comprise the project s chapters and on Dada s performative sabotage and subversion of them In addition to highlighting commonalities between Dadaist works artists and chapters previously imagined disparate the book shows how Dada simultaneously
