Nonprofit Governance Chris Cornforth, William A. Brown, 2013-07-04. The current fashion for rolling back the state has seen the nonprofit or third sector playing an increasing role in what were previously the heartlands of the public sphere. The growing significance of the sector and its increasing reliance on public funds mean it has also attracted increased scrutiny. From outside the sector, concerns have been raised about the accountability and performance of nonprofit organizations. From within the sector, there has been considerable debate about whether the increased reliance on government contracts is in danger of undermining the sector's independence. As a result, the spotlight has fallen on governance arrangements and whether they are adequate to ensure that nonprofit organizations are effective and accountable for their actions and able to retain their independence. This collection offers a comprehensive assessment of research on the governance of nonprofit organizations. Nonprofit governance research has been dominated by the study of boards of unitary organizations and has paid insufficient attention to the multi-level nature of governance, governance relationships and dynamics, and the contribution of actors other than board members to governance processes. Drawing on the research of leading scholars in the US, UK, Canada, and Australia, this book presents new perspectives on nonprofit governance which help to overcome these weaknesses. Written in an accessible manner, the book will be of value to scholars, researchers, students, reflective practitioners, and governance consultants and advisers.

Conceptualizing and Researching Governance in Public and Non-Profit Organizations Luca Gnan, Alessandro Hinna, Fabio Monteduro, 2013-02-08. The first volume of the series aims to give an outline of the state of the art and the most recent research being done on public and nonprofit governance at the international level, with particular emphasis in Europe.
