The Evangelical Tradition in America Leonard Sweet, Leonard I. Sweet, 1997 The essays collected in *The Evangelical Tradition in America* range over a vast plain of historical inquiry Yet they are linked by a common purpose and vision of the exploration through ever widening avenues of research into one of the most important movements in American culture and the uncovering of forgotten ill conceived or half perceived features of the Evangelical tradition This volume opens up new territory recharts the old and challenges and corrects several gaps in the historical topography of American Evangelicalism Emerging from the Charles G Finney Historical Conference at Colgate Rochester Divinity School Bexley Hall Crozer Theological Seminary in October 1981 these essays offer exciting interdisciplinary insights into the role of Evangelical religion in American society As major contributions to scholarship in American religion these investigations forge beyond the borders of Evangelicalism s role in issues now being explored by many American historians on the South blacks women urban centers millennialism and organizational structures They also provide directions from which to view Evangelicalism s impact on American history from the perspective of Southern popular religion the psychological aspects of black evangelicalism the stream of intellectual history and the Enlightenment and evangelical roots of millenarian ideology

Family Values and the Rise of the Christian Right Seth Dowland, 2015-10-20 During the last three decades of the twentieth century evangelical leaders and conservative politicians developed a political agenda that thrust family values onto the nation s consciousness Ministers legislators and laypeople came together to fight abortion gay rights and major feminist objectives They supported private Christian schools home schooling and a strong military Family values leaders like Jerry Falwell Phyllis Schlafly Anita Bryant and James Dobson became increasingly supportive of the Republican Party which accommodated the language of family values in its platforms and campaigns The family values agenda created a bond between evangelicalism and political conservatism *Family Values and the Rise of the Christian Right* chronicles how the family values agenda became so powerful in American political life and why it appealed to conservative evangelical Christians Conservative evangelicals saw traditional gender norms as crucial in

cultivating morality They thought these gender norms would reaffirm the importance of clear lines of authority that the social revolutions of the 1960s had undermined In the 1970s and 1980s then evangelicals founded Christian academies and developed homeschooling curricula that put conservative ideas about gender and authority front and center Campaigns against abortion and feminism coalesced around a belief that God created women as wives and mothers a belief that conservative evangelicals thought feminists and pro choice advocates threatened Likewise Christian right leaders championed a particular vision of masculinity in their campaigns against gay rights and nuclear disarmament Movements like the Promise Keepers called men to take responsibility for leading their families Christian right political campaigns and pro family organizations drew on conservative evangelical beliefs about men women children and authority These beliefs known collectively as family values became the most important religious agenda in late twentieth century American politics

The Four Freedoms Jeffrey A. Engel, 2016 In his 1941 State of the Union address President Franklin Roosevelt framed America's role in World War II and ultimately its role in forging the post war world to come as a fight for freedom Four freedoms to be exact freedom of speech freedom from want freedom of religion and freedom from fear In this new look at one of the most influential presidential addresses ever delivered historian Jeffrey A Engel joins together with six other leading scholars to explore how each of Roosevelt's freedoms evolved over time for Americans and for the wider world

The American Poet Samuel D. G. Heath, PhD, 2010-02-08 Awarded an American Legion Scholarship I am also an award winning author and have published numerous articles and books Having attended several colleges and universities eventually earning my Ph D in Human Behavior I hold several life credentials in education earned during many years as an educator together with years spent working in the Aerospace Industry and other occupations But to call Einstein's famous equation $E=MC^2$ incomplete because it does not account for life and death does seem quite extraordinary yet these remain the two greatest mysteries they have ever been denying us thus far a theory of everything Something animates life and departs with death but what this something is not all our science has yet discovered though things like the Large Hadron Collider may provide needed insight and it has been in the pursuit of knowledge about these two greatest mysteries that has compelled me into so many varied academic studies and careers attempting to make sense of the world and our place in it and how people think and deal with the issues of life and death philosophically religiously and politically The things I have discovered along the way compelled me to much research and speculation about these mysteries and how they impact our lives to communicate my thoughts about them to share with others in a daily journal and posted to my website and provided in book format each year These writings are of importance in an increasingly dangerous world with a most uncertain future due to so much corruption ineptitude and lack of accountability in our own government as well as that of others the abject failure of our schools due to the very same things especially the same lack of accountability we find in government the religious and political hatreds with protracted wars worldwide and little to give hope for world peace I believed my articles about these important enough to

publish in book format Some years ago I removed from the greater part of society to live in semi seclusion alone with my books and thoughts in a quiet part of the Sequoia National Forest devoting myself to contemplation speculating about many things and committing my thoughts in writing fulltime As a writer and author given to much introspection and fascinated by human behavior nature and our universe it was important to me to simplify my life as much as possible as anyone given to philosophical speculation about many things must That much of my writing covers some metaphysical thoughts about God angels and demons an afterlife and Biblical stories of origins of prophecies of the End Times and so much more have been absorbing studies as well and I freely share my thoughts about these in this volume
