Sicily and the Hellenistic Mediterranean World D. Alex Walthall, 2024-02-22 Using archaeological and documentary evidence this book reveals the innerworkings of the Sicilian kingdom of the Hellenistic monarch Hieron II **Shifting Social Imaginaries in the Hellenistic Period** Eftychia Stavrianopoulou, 2013-09-12 There is a long tradition in classical scholarship of reducing the Hellenistic period to the spreading of Greek language and culture far beyond the borders of the Mediterranean More than anything else this perception has hindered an appreciation of the manifold consequences triggered by the creation of new spaces of connectivity linking different cultures and societies in parts of Europe Asia and Africa In adopting a new approach this volume explores the effects of the continuous adaptations of ideas and practices to new contexts of meaning on the social imaginaries of the parties participating in these intercultural encounters The essays show that the seemingly static end products of the interaction between Greek and non Greek groups such as texts images and objects were embedded in long term discourses and thus subject to continuously shifting processes **The Oxford Classical Dictionary** Simon Hornblower, Antony Spawforth, Esther Eidinow, 2012-03-29 The revised third edition of the Oxford Classical Dictionary is the ultimate reference on the classical world containing over 6 200 entries The 2003 revision includes minor corrections and updates and all Latin and Greek words in the text are now translated into English *The Hasmoneans and Their Neighbors* Kenneth Atkinson, 2018-10-04 Kenneth Atkinson adds to an already impressive body of work on the Hasmoneans proposing that the history and theological beliefs of Jews during the period of the Hasmonean state cannot be understood without a close investigation of the histories of the Ptolemaic and Seleucid Empires as well as the Roman Republic Citing evidence from the Dead Sea Scrolls and classical sources Atkinson offers a new reconstruction of this vital historical period when the Hasmonean family changed the fates of their neighbors the Roman Republic the religion of Judaism and created the foundation for the development of the nascent Christian faith Atkinson additionally provides reconstructions of events in classical history including the most detailed examination of Pompey the Great s assassination in light of Jewish sources by focusing on his death this volume uncovers new information that explains the discrepancies in the classical accounts of this pivotal event that shaped Middle Eastern and Roman history and which helped end the Republic Collecting sources ranging from the beginning of the Hasmonean monarchy through its religious strife and golden age to its eventual downfall Atkinson concludes that that Jewish sectarianism and messianism played far greater roles in the Hasmonean state than has previously be assumed *In Search of the Phoenicians* Josephine Quinn, 2019-12-10 Who were the ancient Phoenicians and did they actually exist The Phoenicians traveled the Mediterranean long before the Greeks and Romans trading establishing settlements and refining the art of navigation But who these legendary sailors really were has long remained a mystery In Search of the Phoenicians makes the startling claim that the Phoenicians never actually existed as such Taking readers from the ancient world to today this book argues that the notion of these sailors as a coherent people

with a shared identity history and culture is a product of modern nationalist ideologies and a notion very much at odds with the ancient sources

Highways, Byways, and Road Systems in the Pre-Modern World Susan E. Alcock, John Bodel, Richard J. A. Talbert, 2012-05-15 Highways Byways and Road Systems in the Pre Modern World reveals the significance and interconnectedness of early civilizations pathways This international collection of readings providing a description and comparative analysis of several sophisticated systems of transport and communication across pre modern cultures Offers a comparative analysis of several sophisticated systems of overland transport and communication networks across pre modern cultures Addresses the burgeoning interest in connectivity and globalization in ancient history archaeology anthropology and recent work in network analysis Explores the societal cultural and religious implications of various transportation networks around the globe Includes contributions from an international team of scholars with expertise on pre modern India China Japan the Americas North Africa Europe and the Near East Structured to encourage comparative thinking across case studies

Prostitution in the Ancient Greek World Konstantinos Kapparis, 2017-10-23 Prostitution in the ancient Greek world was widespread legal and acceptable as a fact of life and an unavoidable necessity The state regulated the industry and treated prostitution as any other trade Almost every prominent man in the ancient world has been truly or falsely associated with some famous hetaira These women who sold their affections to the richest and most influential men of their time have become legends in their own right They pushed the boundaries of female empowerment in their quest for self promotion and notoriety and continue to fascinate us Prostitution remains a complex phenomenon linked to issues of gender culture law civic ideology education social control and economic forces This is why its study is of paramount importance for our understanding of the culture outlook and institutions of the ancient world and in turn it can shed new light and introduce new perspectives to the challenging debate of our times on prostitution and contemporary sexual morality The main purpose of this book is to provide the primary historical study of the topic with emphasis upon the separation of facts from the mythology surrounding the countless references to prostitution in Greek literary sources

The Oxford Handbook of the Historical Books of the Hebrew Bible Brad E. Kelle, Brent A. Strawn, 2020-11-02 The Oxford Handbook of Historical Books of the Hebrew Bible is a collection of essays that provide resources for the interpretation of the books of Joshua Judges Samuel Kings Chronicles Ezra and Nehemiah The volume is not exhaustive in its coverage but examines interpretive aspects of these books that are deemed essential for interpretation or that are representative of significant trends in present and future scholarship The individual essays are united by their focus on two guiding questions 1 What does this topic have to do with the Old Testament Historical Books and 2 How does this topic help readers better interpret the Old Testament Historical Books Each essay critically surveys prior scholarship before presenting current and prospective approaches Taking into account the ongoing debates concerning the relationship between the Old Testament texts and historical events in the ancient world data from Assyrian Babylonian and Persian culture and history are used to provide a larger context for the

content of the Historical Books Essays consider specific issues related to Israelite Judean history settlement state formation monarchy forced migration and return as they relate to the interpretation of the Historical Books This volume also explores the specific themes concepts and content that are most essential for interpreting these books In light of the diverse material included in this section of the Old Testament the Handbook further examines interpretive strategies that employ various redactional synthetic and theory based approaches Beyond the Old Testament proper subsequent texts traditions and cultures often received and interpreted the material in the Historical Books and so the volume concludes by investigating the literary social and theological aspects of that reception

Gold: How it Shaped History Alan Ereira, 2024-11-30 Gold is not what we think It is usually discussed in the context of wealth and art but this book has a broader subject so fundamental that it has been largely unremarked Informed by a mass of recent discoveries and a South American indigenous perspective it offers a new way of understanding the history of civilization Gold has been coinage treasure and adornment But it has been much more as the hidden driver of wars and revolutions the rise and fall of empires and the transformation of societies As the sun traveled east to west across the sky gold incorruptible and corrupting flowed west to east hand to hand across the world That flow has brought empires to grow and collapse and driven plunder conquest and colonization It brought about wars and revolutions empowered new forms of arts and science and created the capitalist consumer economy that dominates us now All the gold people ever shaped still exists shining as new it can be mislaid but never decays Right from its first appearance on the west shore of the Black Sea long before the rise of Egypt and Mesopotamia gold crowned the first proto king Ever since it has been regarded as value incarnate with transcendental power The quantity we take has been increasing steadily for 6 500 years Now extraction accelerates Our gold mountain has doubled in the last fifty years Yet its price increases faster While the quantity doubled its buying power multiplied by six What does gold do that makes us want it so much As Alan Ereira reveals in this skilfully woven narrative gold is the hidden actor that shapes our story

Handbook of Ancient Afro-Eurasian Economies Sitta von Reden, 2023-10-24 The Handbook of Ancient Afro Eurasian Economies offers in three volumes the first comprehensive discussion of economic development in the empires of the Afro Eurasian world region to elucidate the conditions under which large quantities of goods and people moved across continents and between empires Volume 3 Frontier Zone Processes and Transimperial Exchange analyzes frontier zones as particular landscapes of encounter economic development and transimperial network formation The chapters offer problematizing approaches to frontier zone processes as part of and in between empires with the goal of better understanding how and why goods and resources moved across the Afro Eurasian region Key frontiers in mountains and steppes along coasts rivers and deserts are investigated in depth demonstrating how local landscapes politics and pathways explain network practices and participation in long distance trade The chapters seek to retrieve local knowledge ignored in popular Silk Road models and to show the potential of frontier zone research for understanding the Afro Eurasian region as a connected space

If you ally compulsion such a referred **Pdf Online Hellenistic World Sources Coinage Ancient** ebook that will manage to pay for you worth, acquire the categorically best seller from us currently from several preferred authors.
