Minority Accommodation through Territorial and Non-Territorial Autonomy Tove H. Malloy, Francesco Palermo, 2015-10-08 *Minority Accommodation through Territorial and Non Territorial Autonomy* explores the relationship between minority territory and autonomy and how it informs our understanding of non territorial autonomy NTA as a strategy for accommodating ethno cultural diversity in modern societies While territorial autonomy TA is defined by a claim to a certain territory NTA does not assume that it is derived from any particular right to territory allocated to groups that are dispersed among the majority while belonging to a certain self identified notion of group identity In seeking to understand the value of NTA as a public policy tool for social cohesion this volume critically dissects the autonomy arrangements of both NTA and TA and through a conceptual analysis and case study examination of the two models rethinks the viability of autonomy arrangements as institutions of diversity management This is the second volume in a five part series exploring the protection and representation of minorities through non territorial means examining this paradox within law and international relations with specific attention to non territorial autonomy NTA

Minorities and Law in Czechoslovakia, 1918-1992 Jan Kuklík, René Petráš, 2017-05-01 Ethnic minority issues played an important role in the history of Czechoslovakia from 1918 during World War II and in the years immediately following it Czechoslovakia became a model for solving ethnic and minority problems and legal regulations had always played a key role in the status of minorities This book which deals with issues concerning ethnic and language minorities in Czechoslovakia from a long term perspective is primarily intended for foreign readers In recent years ethnic minority issues are once again becoming relevant in Europe and thorough knowledge of earlier problems and solutions may facilitate further examination of the current problems

Asymmetries, Courts, and Comparative Constitutional Law Lidia Bonifati, 2025-10-30 This book explores constitutional asymmetries in divided multi tiered systems as a dynamic constitutional model to

accommodate ethnocultural diversity through a comparative analysis of 12 constitutional systems from both the Global North and the Global South It offers a unique integrated analysis of asymmetries as designed by the constitutional orders and interpreted by courts The book contributes to the comparative constitutional scholarship on asymmetric federalism providing for not only a qualitative but also a quantitative assessment of asymmetries It combines traditional doctrinal and case law analysis with emerging methodological approaches to legal research such as empirical legal studies and decolonial comparative law Managing Diversity Through Non-territorial Autonomy Tove H. Malloy,Aleksandr Gennad'evich Osipov,Balázs Vizi,2015 Non territorial autonomy NTA is a statecraft tool aimed at respecting the rights of ethnic and cultural minority groups This volume examines the non territorial institutional and public administration functions of NTA providing policy makers and ethno cultural groups the tools to promote social cohesion while respecting diversity

Federalism and the Law of Diversity ,2025-01-27 The volume offers new and unexplored perspectives on federalism and its relationships with diversity accommodation It represents the first structured attempt to use federal theory and practice to frame several phenomena of governance in the area of diversity management Federalism is here tested as a theoretical and practical tool that may contribute to a better understanding of phenomena such as non territorial autonomy participatory democracy and legal pluralism This volume unveils the theoretical potential of federalism in explaining complex pluralist legal systems This theoretical function may be the 21st century dimension of federalism *Politics of Ethnic Accommodation* Hamza Lenhard,2022 This book uses a unique and innovative way to show the benefits and perils of decentralization as a mechanism to solve internal ethnic conflicts It explores how administrative fiscal and political dimensions of decentralization have affected the process of ethnic minorities accommodation in Kosovo It provides analysis and answers on how decentralization has reduced the chances of a conflict It also critically examines the impact of the agreement for establishing the Association of Serb Majority Municipalities on decentralization and the overall governance system of Kosovo **Unity in Diversity** Christophe van der Beken,2012 This book argues that the development of federalism in Ethiopia fits in with a global trend towards increased attention to ethnic minority rights and to federalism as a mechanism for ethnic conflict prevention and management The Ethiopian federation is designed as a framework within which the Ethiopian ethnic groups can protect their rights and within which they are stimulated to develop a cooperative relationship To put it differently the constitutional objective of the federal structure is the creation of unity in diversity The book evaluates the capacity of Ethiopian federalism to achieve this objective by investigating the relevant historical political and legal aspects Series Recht und Politik in Afrika Law and Politics in Africa Vol 10 *Understanding Federalism and Federation* Alain-G. Gagnon,Soeren Keil,2016-03-09 Based on a variety of contemporary debates on federal theory Understanding Federalism and Federation honours Michael Burgess contribution to the study of these topics through a selection of approaches theories debates and interpretations Gathering contributors from diverse subfields to synthesize

current debates it offers a snapshot of the immense range of current research on federalism and federation. Leading authors debate key issues such as American federalism, Canada and the role of Quebec, the latest insights into comparative federalism and federation, the European Union as a federal project and the analysis of constitutional courts in federal systems. Different theoretical and empirical fields and perspectives are brought together, synthesizing major findings and addressing emerging issues, and these topics are analysed through multiple lenses to provide new insights, original approaches and much needed theoretical and empirical data on federalism and federation.

Federal Solutions For Fragile States In The Middle East: Right-sizing Internal Borders Liam Anderson, Vaughn Shannon, 2021-06-04

In most regions of the world, federalism, territorial autonomy is used as a successful institutional means of dispersing political power and accommodating ethnic, religious and cultural diversity. The Middle East is an exception. Aside from the anomalous case of the UAE and Iraq's troubled experiment with federalism, Middle Eastern regimes have largely resisted efforts to decentralize political power. As a result, the norm in the region has been highly centralized unitary systems that have more often than not paved the way for authoritarian rule or played witness to serious internal fragmentation and conflict divided along ethnic or religious lines.

Federal Solutions for Fragile States in the Middle East makes an argument for the implementation of federalism in the post-conflict states of the Middle East. The argument operates on two levels: the theoretical and the practical. The theoretical case for federalism is backed by empirical evidence, but to accurately evaluate the practical and logistical feasibility of its implementation in any given case requires detailed knowledge of real-world political realities. The book's focus is on four post-conflict states: Iraq, Syria, Yemen and Libya, though the arguments advanced within have broad regional applicability.
