Reading and Understanding Research Lawrence F. Locke, Stephen J. Silverman, Waneen Wyrick Spirduso, 2010 There is virtually no way to complete one's education without encountering a research report The book that has helped demystify qualitative and quantitative research articles for thousands of readers from the authors of the best selling Proposals that Work has been revised This edition is completely reorganized to separate quantitative and qualitative research with four new distinct sections research reports quantitative research qualitative research and research reviews The authors presume no special background in research and begin by introducing and framing the notion of reading research within a wider social context Next they offer insight on when to seek out research locating and selecting the right reports and how to help evaluate research for trustworthiness

Developing Research Proposals Pam Denicolo, Lucinda Becker, 2012-01-20 Writing a research proposal is one of the most important tasks facing academics researchers and postgraduate students Yet there is a good deal of misinformation and a great lack of guidance about what constitutes a good research proposal and what can be done to maximise one's chances of writing a successful research proposal Denicolo and Becker recognise the importance of developing an effective research proposal for gaining either a place on a research degree

programme or funding to support research projects and set out to explore the main factors that that proposal writers need to attend to in developing successful proposals of their own Developing Research Proposals will help readers to understand the context within which their proposal will be read what the reviewers are looking for and will be influenced by while also supporting the development of relevant skills through advice and practical activities This book Explores the nature and purpose of different kinds of proposals Focuses on the actual research proposed Discusses how best to carry out and structure the literature review Examines the posing and phrasing of research questions and hypotheses Looks at how methods and methodology should be handled in a proposal Discusses the crucial issues of planning strategy and timing in developing targeted proposals Denicolo and Becker draw together the key elements in the process of preparing and submitting a proposal and concludes with advice on responding to the results successful or not and their relevance to future proposals The Success in Research series from Cindy Becker and Pam Denicolo provides short authoritative and accessible guides on key areas of professional and research development Avoiding jargon and cutting to the chase of what you really need to know these practical and supportive books cover a range of areas from presenting research to achieving impact and from publishing journal articles to developing proposals They are essential reading for any student or researcher interested in developing their skills and broadening their professional and methodological knowledge in an academic context
