The opening chapter of this multiple-author book is titled, "Hidden in Plain Sight"—a title that would have been suitable for the book itself.

While gay marriage has inspired polemics and even consideration of a possible constitutional amendment, the plight of prostitutes and other so-called "sex workers" is not the stuff of front pages. For instance, the following three articles appeared inside three September issues of the *New York Times* and the *Financial Times*: "Tokyo's red light district faces a ritual cleansing,"¹ "Determining the future of a girl with a past: is the answer to child prostitution forced counseling or incarceration?"² and "Bid to decriminalize prostitution in Berkeley."³ The first article manages to avoid using the word prostitution and concludes with a quote from an author who has written about the Kabuchiko district: "People here work hard for their living and they love this area. ... If we sweep all this clean, what will happen to all these wonderful people?"⁴ The second article talks about a 12-year-old girl who was arrested and charged with prostitution and the year of "wrangling ... involving Family Court, ... prosecutors, judges, dueling therapists, court appointed lawyers, child welfare authorities, a representative of the state's juvenile jails, and a [charity] that provides housing for troubled adolescents."⁵ The third article depicts the conflict of opinions provoked by Robyn Few, a former prostitute who put an initiative on the ballot in Berkeley, California, to make prosecution of prostitution a low priority for the city's police. The editor of this book, Melissa Farley, is a San Francisco psychologist now retired after many years with The Permanente Medical Group and active within an organization called Prostitution Research and Education. She opposes Ms Few. Dr Farley says, "This is an ordinance that reflects the interests of Johns and pimps." Dr Farley evidently disagrees with Dr Barbara Brents, a University of Nevada sociology professor, who believes that, "In a perfect world, there is no reason women can't set up shop [as prostitutes] and run their own businesses the same way a therapist would."⁶

... society is more interested in protecting the health and welfare of clients than of these "sex workers" ...

The 17-chapter, 35-author book edited by Dr Farley (and edited and published as a volume of the *Journal of Trauma Practice*)⁷ opens with a dedication to the crucified prostitute-turned-mass-murderer, Aileen Carol Wuornos but does not explain for the uninitiated who she was. Most of the chapters consist of case studies or surveys of "sex workers" (a term the authors condemn) in many different countries on six continents. Few surprises are to be found: The authors conclude that these women entered prostitution in their teens; were neglected and abused as children; work under conditions that are dangerous, disgusting, and demeaning; lack the economic, educational, or emotional resources to leave their virtual enslavement; are threatened by the law, whether as illegal immigrants or as criminals; use drugs to lessen their emotional pain; and become dependent on these drugs. The book also indicates that society is more interested in protecting the health and welfare of clients than of these "sex workers" and that pornography and prostitution are different aspects of what was described by Yutaka Takehana (the deputy

ordered by Tokyo's governor to clean up the city's "red light" district) as "ugly things related to sex. [a] kind of perverted culture."⁸ The book reports that men as well as women can be prostituted, that a global marketplace exists for sex, and that governments are as likely to identify with the needs of the sex industry as with its victims. One of the authors refers to prostitution as "a

system of gender-based totalitarianism,"⁹⁻¹¹ but most view it from a free-market perspective: Some people are willing and able to pay to satisfy their sexual appetites, and others hire, kidnap, or enslave people to provide this satisfaction.

The book includes four chapters that focus on measures designed to help women leave prostitution. The needs of these women are daunting: The prostitution survivor needs "a wholesale re-creation of her entire life. She must find shelter, protect herself from both intimates and strangers, manage legal vulnerabilities, face loneliness, and obtain adequate financial resources."¹²⁻¹⁴ The chapter about Social Security dis-

Trauma and Serious Mental Illness Steven N. Gold, John D. Elhai, 2018-10-24 An exploration of the newfound connections between mental illness and trauma For decades the idea that serious mental illnesses SMIs are almost exclusively biologically based and must be treated pharmacologically has been commonplace in psychology literature As a result many mental health professionals have stopped listening to their clients categorizing their symptoms as manifestations of neurologically based disturbed thinking Trauma and Serious Mental Illness is the groundbreaking series of works that challenge this standard view and provides a comprehensive introduction to the emerging perspective of SMIs as trauma based This unique collection illustrates how different psychotherapy approaches can lead to reduced symptomatology decreased psychological distress and improved functioning in individuals living with SMIs Each extensively referenced chapter in Trauma and Serious Mental Illness offers mental health workers a forward looking theoretical inquiry empirical study or critical treatise providing compelling counter evidence to challenge the widespread belief that SMIs are not reactions to the extreme and extremely disturbing circumstances embodied by psychological trauma In addition to the etiological application this revealing text proposes ways to incorporate this cutting edge approach toward treatment options as well Contributors to Trauma and Serious Mental Illness suggest that childhood trauma is related to psychotic disorders dissociation can be confounded with psychotic symptoms auditory hallucinations can be diagnostic of dissociation rather than psychosis psychosis is related to the quality of family of origin environment and to age of onset of childhood abuse bipolar and trauma related disorders sometimes overlap individuals with SMIs suffer related trauma even in treatment facilities and much more Trauma and Serious Mental Illness is an eye opening resource for mental health professionals psychologists counselors psychiatrists social workers trauma workers and educators and students in these disciplines

Prostitution, Harm and Gender Inequality Maddy Coy, 2016-04-08 Prostitution Harm and Gender Inequality brings together international research exploring the range of

gendered harms to women involved in prostitution and the consequences of growth of the sex industry for global gender relations While there is an increasing amount of research and academic output on prostitution the current focus is often on discussion and critique of policy frameworks and contemporary debates over harm are largely limited to sex trafficking and sexual exploitation of children Less attention is paid to questions of how the sex industry perpetuates notions of objectification and male entitlement with respect to sexual access to women s bodies despite being key feminist concerns for several decades This position has become effectively marginalized but the global growth and industrialization of the sex industry requires a return to these questions Through exploring gendered inequality and re engaging with an understanding of prostitution as harmful with impacts on the self and body that are experienced as abusive but do not always constitute violence this book introduces a range of research and thinking while also drawing on existing literature to explore the consequences of prostitution for women in the sex industry and wider gender relations These issues are discussed with regard to coercion and recruitment including trafficking notions of male entitlement in accounts of men who buy sex critical interrogations of agency and choice legal and policy frameworks and representations of prostitution in popular culture

Trauma Bonding and Interpersonal Crimes Joan A. Reid, 2024-11-04 A COLLECTION OF RECENT RESEARCH AND REAL LIFE REPORTS ON TRAUMA BONDING IN MANY CONTEXTS OF INTERPERSONAL VIOLENCE Trauma bonding the emotional attachment victims develop toward their abusers or captors has been repeatedly observed in victims of interpersonal crimes yet little is known about its formation persistence and positive resolution in survivors Trauma Bonding and Interpersonal Crimes provides a timely review of existing theoretical conceptualizations and research findings on trauma bonding in relation to various forms of interpersonal crimes including human trafficking intimate partner violence child sexual abuse cults kidnapping gang violence and terrorism With an accessible and reader friendly style lead author Joan A Reid examines the concept of trauma bonding while offering insights into the consequences of how the phenomenon is framed in the public discourse and the professional sectors Twelve chapters investigate key topics ranging from methodological issues and research limitations to current debates on victimology within academic disciplines such as criminology psychology social work sociology and public health Providing a holistic approach to the subject Trauma Bonding and Interpersonal Crimes Highlights the complexities of intervention and treatment for trauma survivors and clinicians Explores the implications for policy related to trauma bonding Recommends potential avenues for integrated theory and research Features case studies that combine individual examples and evidence based research Includes definitions of terms critical thinking questions and further readings in each chapter Part of Wiley s Psycho Criminology of Crime Mental Health and the Law series Trauma Bonding and Interpersonal Crimes is an invaluable resource for upper level undergraduate and graduate students researchers policymakers and practitioners in areas related to victims of human trafficking intimate partner violence and child sexual abuse *United States Attorneys Bulletin* ,2006 **The Subject of Prostitution** Jane

Scoular,2015-12-22 The Subject of Prostitution offers a distinctive analysis of the links between prostitution and social theory in order to advance a critical analysis of the relationship of law to sex work Using the lens of social theory to disrupt fixed meanings the book provides an advanced analytical framework through which to understand the complexity and contingencies of sex work in late modernity The book analyses contemporary citizenship discourse and the law s ability to meet the competing demands of empowerment by sex workers and protection by radical feminists who view prostitution as the epitome of patriarchal sexual and economic relations Its central focus is the role of law in both structuring and responding to the problem of prostitution By developing a distinctive constitutive approach to law the author offers a more advanced analytical framework from which to understand how law matters in contemporary debates and also suggests how law could matter in more imaginative justice reforms This is particularly pertinent in a period of unprecedented legal reform both internationally and nationally as legal norms simultaneously attempt to protect empower and criminalise parties involved in the purchase of sexual services The Subject of Prostitution aims to overcome the current aporia in these debates and suggest new ways to engage with the subject and law As such The Subject of Prostitution provides an advanced theoretical resource for policymakers researchers and activists involved in contemporary struggles over the meanings and place of sex work in late modernity
