The Moral Vision of Proverbs Timothy J. Sandoval, 2024-04-16 Wisdom literature is an unfamiliar genre to modern readers and presents many interpretive challenges In this major new work respected wisdom scholar Timothy Sandoval argues that the book of Proverbs though difficult to access for some provides a coherent moral vision for human flourishing The approach Sandoval argues for in *The Moral Vision of Proverbs* is that of virtue ethics or character ethics particularly that which emerges from the classical tradition of Aristotle as opposed to reading the book intentionally or unintentionally through the lenses of modern ethical systems Sandoval engages with specialists in this ethical tradition as well as biblical scholars to make his case that Proverbs is an ancient virtue oriented moral discourse This comprehensive critical study of Proverbs analyzes the book s major topics and strives to discern the moral and philosophical presuppositions and logic of its rhetoric all the while engaging past and present interpretive approaches Although authored by a Christian scholar this text will be of

great interest to a broadly ecumenical audience whether students of the Old Testament Tanakh Hebrew Bible biblical scholars or Christian ethicists and moral theologians
