Psicanalisi E Politica:

Psychoanalysis and Politics Joy Damousi, Mariano Ben Plotkin, 2012-02-02 This volume explores a central paradox in the evolution of psychoanalytic thought and practice and the ways in which they were used Why and how have some authoritarian regimes utilized psychoanalytic concepts of the self to envisage a new social and political order

Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people's desires fantasies and emotions shape political events and social phenomena It highlights the mythical sources of today's political projects the power of political imagination and the function of symbolism in political thought Eszter Salgó argues that the driving force for the formation of political communities is fantasy illusions in a Winnicottian sense phantasies in a Lacanian sense phantoms as described by Nicolas Abraham and Maria Torok and dreams as interpreted by Sándor Ferenczi She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent The book is divided into two parts The first part of the book explores the theories of Donald Winnicott and Jacques Lacan the matrimony on the stage of politics between the good enough mother and the Symbolic Father which inaugurates the story of democracy's fantastic family The second part presents the fantastic families of selected countries such as Hungary Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions Psychoanalytic Reflections on Politics Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy It will be of interest to psychoanalysts and academics from across the disciplines of politics psychology anthropology sociology philosophy literature and art *The Sexual/Political* Lorenzo Bernini, 2023-06-28 The Sexual Political engages with contemporary political issues in sexuality through a survey of modern philosophy psychoanalytic thought 20th century political theory and more recent queer philosophies The book investigates how the sexual has perturbed philosophical political and psychoanalytic thought and how this has fed into discrimination against the LGBTQI community It analyses the social stigmas applied to public and private sexual acts and the psychopolitical processes leading to the prevalence of neo fascist populism in Italy and the world Tracing the history of sexuality through Freud Marx Fanon and Foucault among many others Bernini considers why the sexual has always been an exceptionally difficult object to consider in political theory This book will be of key interest to scholars in queer theory antisocial theory psychoanalysis and politics drive theory political philosophy critical theory LGBTQIA issues gender and sexuality studies and Italian studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Il*

Architecture After Deleuze and Guattari Chris L. Smith, 2023-05-04 This study illuminates the complex interplay between Deleuze and Guattari's philosophy and architecture Presenting their wide ranging impact on late 20th and 21st century architecture each chapter focuses on a core Deleuzian Guattarian philosophical concept and one key work of architecture which evokes contorts or extends it Challenging the idea that a concept or theory defines and then produces the physical work and not vice versa Chris L Smith positions the relationship between Deleuze and Guattari's philosophy and the field of architecture as one that is mutually substantiating and constitutive In this framework modes of architectural production and experimentation become inextricable from the conceptual territories defined by these two key thinkers producing a rigorous discussion of theoretical practical and experimental engagements with their ideas **From Revolution to Ethics, Second Edition** Julian Bourg, 2017-11-28 A bold history of French intellectual life and the legacies of 1960s radicalism
