Intro Guide Paint Shop Pro 7 Davis, 2002-07. *Making Supervision Work for You* Jerry J. Wellington, 2010-04-16. Amongst the plethora of advice and guidance books and articles now available for postgraduate researchers, I would advise my students to select this one as providing insight not simply on what to do but also on why and how in relation to developing an effective working relationship with their supervisors. Since it addresses most of the new demands emerging in the doctoral world as well as those standard ones that have impacted previously, I would also recommend it to new or less experienced supervisors. Professor Pam Denicolo, University of Reading. *Making Supervision Work For You* discusses the entire supervision process from the student's perspective as well as considering the supervisor's viewpoint and constraints. The author covers all phases of the student's journey from induction through to final completion and examination of the thesis and the viva voce. The book illustrates many of the key issues in supervision by drawing upon extensive material from recent interviews with a range of supervisors and students. This book presents new ideas, regulations, and codes of practice and offers practical suggestions for students. It emphasizes students' experiences and needs whilst also

maintaining a focus on the supervisor's perspective and the demands of assessment at post graduate level The book is primarily aimed at Post graduate students but will also be useful for undergraduates in their final year and equally for new or experienced supervisors SAGE Study Skills are essential study guides for students of all levels From how to write great essays and succeeding at university to writing your undergraduate dissertation and doing postgraduate research SAGE Study Skills help you get the best from your time at university Visit the SAGE Study Skills hub for tips quizzes and videos on study success
