Quantum Psychics - Scientifically Understand, Control and Enhance Your Psychic Ability Theresa M. Kelly, 2013-03-18

This groundbreaking book written by Metaphysicist and Bestselling Author Dr Theresa M Kelly utilizes an extensive list of scientific studies and laws to reveal how the laws of physics do not have to be rewritten to explain how psychic abilities work. The author exposes that psychic abilities are possible due to wirelessly transmitted data and commands weakly emitted through the mind and bodies own natural electromagnetic radiation. She also exposes that psychokinesis is possible by means of coupling and critically tuned frequencies operating in the electromagnetic near field. The book includes several exercises and techniques enabling the reader to learn how to control and enhance their psychic or psychokinetic abilities including using scientific and safe means of enhancement. With over fourteen years of hands on experience in her field Dr Theresa M Kelly bridges the gap between physics and metaphysics in a manner both easily comprehensible to the layperson and easily appreciated by professionals.

Energy Manipulation Sophia Anderson, AI, 2025-03-10. *Energy Manipulation* explores the science and theoretical physics behind the energy based powers featured in manga. By bridging the gap between scientific understanding and creative imagination the book examines real world energy sources such as kinetic and electromagnetic energy alongside theoretical concepts like zero point energy and hypothetical particles. This approach offers readers a deeper appreciation for both the science and the art form revealing how manga often creatively adapts or exaggerates scientific principles. The book progresses logically beginning with fundamental energy concepts before dedicating chapters to specific energy types commonly depicted in manga like fire, electricity and gravity. By analyzing examples from various manga titles the author illustrates the connections between these fictional powers and their real or theoretical scientific counterparts. The discussion extends to potential real world applications of energy manipulation drawing parallels between scientific research and the imaginative possibilities presented in manga. This unique exploration provides valuable insights for manga fans, science enthusiasts and creatives alike. It systematically analyzes the science behind manga powers fostering a greater interest in science and manga. The book emphasizes accuracy, clarity and engagement making complex concepts accessible through examples and analogies while also acknowledging the ongoing scientific debates surrounding certain theoretical concepts.

Healing Carol Dignam,2024-12-06 Multidimensional Healing offers a holistic physical psycho spiritual model of healing While the current global healthcare system biomedical allopathy is well suited to support physical healing using objective methods such as drugs it ceased to be well suited to support subtle energetic psycho spiritual healing when its subjective method of psychoanalytic regression was displaced by drugs The author Carol Dignam discovered an ancient narrative describing both

physical and psycho spiritual healing in traditional myths When Hero myths describe men using weapons to kill bad guys to heal the kingdom they are describing how allopathic doctors use drugs to kill germs to heal the body When Heroine myths describe weavers meditatively ravelling and unravelling disharmonious threads until the weaving is magical they are describing how meditators unravel psychic trauma until the psyche is harmonious When both myths describe magical beings supporting the journey they are describing the psychic and spiritual parts supporting healing In search of a meditation supporting holistic physical psycho spiritual healing like the heroines of old the author began weaving together the cross cultural subjective healing methods of shamanic journeying meditation prayer and regression until a universal somatic meditation shone through Likewise in search of an archetypal system that accurately described the psychic parts supporting psychic integration the author wove together the cross cultural archetypal systems until the second golden thread of a universal archetypal system shone through Like the Greek myth of Ariadne whose golden thread led Theseus safely through the labyrinth of his psyche the first golden thread was designed to lead the reader through their psychic labyrinth while the second illuminates the psychic parts therein supporting healing
