beginning phases of mediumship not the perfected exercises of the adept With this mission in mind I journaled my experiences and edited them into *The Skeptic Psychic* an Autobiography into the Acceptance of the Unseen *The Skeptic Psychic* has two purposes first it entices the reader to expand their imagination beyond what we currently perceive as reality and it offers my experiences and my reactions my fear to these situations as a comfort and encouragement for the reader to challenge their own suspicions and limitations I am now a working psychic offering animal readings or mediumship as well as leading meditations teaching classes and offering energy healing and my students and clients often comment how at peace and naturally talented I am and I smile For I know that I had lived through a myriad of experiences that with time had taught me to acclimate and accept the unseen But I am far from naturally talented and I feel that *The Skeptic Psychic* could help aspiring psychics or anyone contemplating the unknown to better understand that they are not alone in what they are experiencing I composed *The Skeptic Psychic* from chronological journal entries that span from August of 2005 through March of 2006 The book opens just after I attended a weekend retreat that posed the possibility that adults could believe in fairies and aliens The more I questioned if fairies could exist the more I discovered that they did Later that year I confronted my apprehension when sensing that aliens were near as well And as 2005 changed into 2006 I learned to overcome my fears and to accept the unseen I realize that my story and the fact that aliens and fairies do exist sounds rather unbelievable but read my book follow the path the reasoning of how I learned to overcome my fears and understand that the result was a peace a knowing that we are not alone in our reality that there are unseen beings guides are another term that are present to enlighten protect and serve I close this book description the way I close all my journal entries with the salutation Namaste defined through WIKPEDIA as I respect that divinity within you that is also within me Namaste Suzy Graf *Psychics, Sensitives and Somnambules* Rodger I. Anderson, 2006-09-28 Claimants of paranormal abilities have always attracted controversy and fascination and sometimes rigorous study by scientists Charles Bailey an Australian medium was seemingly able to materialize different objects animate and inanimate under conditions which made it difficult to conceive how they could have been normally produced Sumitra Singh a woman of Northern India who in 1984 became subject to epileptic type seizures claimed to be possessed by spirits of the dead Franck Kluski was a Polish poet banker and physical medium who specialized in both human and animal materializations This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun each accompanied by a bibliography listing the primary sources consulted The primary focus is on those claimed psychics who have figured prominently in the history of the subject though some lesser known figures are included to show how rich varied and colorful that history has been The aim throughout is to present each case as fairly and dispassionately as the facts allow with a particular eye for accuracy in details and presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference **Is Your Pet Psychic?** Richard Webster, 2002 What is your pet thinking Cats who predict earthquakes dogs who improve marriages and
