This book will synthesise the body of knowledge of the psychology of addiction from an Islamic perspective to foster awareness and understanding of addictive behaviours to break that stigma. It will also provide knowledge required to respond effectively to Muslim clients that psychotherapists and counsellors might encounter in their clinical practice, presenting a step-by-step application of Rassool's Islamic Psychotherapy Practice model in working with clients with addictive behaviours. This book will be a valuable read for Islamic psychologists, psychotherapists, and counsellors, addiction researchers, and specialists and students in these fields.
