Handbook of Educational Psychology Paul A. Schutz, Krista R. Muis, 2023-10-27 The fourth edition of the Handbook of Educational Psychology sponsored by Division 15 of the American Psychological Association addresses new developments in educational psychology theory and research methods while honoring the legacy of the field's past. Comprising 31 chapters written by a diverse group of recognized Educational Psychologists and/or Learning and Motivational Scientists, EDP LMS scholars, this volume provides integrative reviews and critical syntheses of inquiry across a variety of foundational and new areas. Key constructs like motivation, development, beliefs, literacy, and emotions are given substantive updates while entire new chapters touch on trends that have materialized since the publication of the third edition, such as inquiry, world views, Critical Race Theory, cognitive neuroscience, and emerging technologies in education. Throughout this new edition, chapter authors coalesce on issues of social justice, situated approaches to inquiry, and progressive inquiry methods. The Handbook of Educational Psychology, Fourth Edition, will be an important reference volume for current and future EDP LMS scholars broadly conceived, as well as for teacher educators, practicing teachers, policy makers, and the academic libraries serving these audiences. It is also appropriate for graduate-level courses in educational psychology, learning and motivational sciences, and research methods in education and psychology.

Handbook of Critical Education Research Michelle D. Young, Sarah Diem, 2023-07-25 This handbook offers a contemporary and comprehensive review of critical research theory and methodology. Showcasing the work of contemporary critical researchers who are harnessing and building on a variety of methodological tools, this volume extends beyond qualitative methodology to also include critical quantitative and mixed methods approaches to research. The critical scholars contributing to this volume are influenced by a diverse range of education disciplines and represent multiple countries and methodological backgrounds, making the handbook an essential resource for anyone doing critical scholarship. The book moves from the theoretical to the specific, examining various paradigms for engaging in critical scholarship, various methodologies for doing critical research, and the political, ethical, and practical issues that arise when working as a critical scholar. In addition to mapping the field, contributions synthesize literature, offer concrete examples, and explore relevant contexts, histories, assumptions, and current practices, ultimately fostering generative thinking that contributes to future methodological and theoretical breakthroughs. New as well as seasoned critical scholars will find within these pages exciting new ideas, challenging questions, and insights that spur the continuous evolution and grow the influence of critical research methods and theories in the education and human disciplines.
