McCallister, 2022-03-28 In *A Pedagogical Design for Human Flourishing* Transforming Schools with the McCallister Model Cynthia McCallister presents a revolutionary paradigm for education that is practical conceptually convincing and grounded in contemporary behavioral science theory Beginning with the assertion that equality of educational opportunity depends on access to experiences that are sufficiently appropriate and rich to enable the achievement of diverse human potentials she provides a comprehensive school design for intervention that demonstrates how to achieve it Grounded in recent advances in learning science McCallister asserts three necessary conditions for learning the need for learners to have access to diverse rich environmental experiences the need for them to enjoy fundamental freedom and autonomy to direct their own learning and access to full and free forms of association In her model these conditions provide what is necessary for learners to coordinate their minds with others to develop their identities personalities and talents These conditions are animated in

concrete procedures that can be adapted to a wide variety of populations in formal informal and remote educational settings The procedures take the form of rules that learners comply with in the exercise of their freedom When they are followed the rules provide a grammar for the social norms that govern the moral worlds of learners and compel them to flourish Tested over two decades in her work as a teacher scholar and school reformer in more than 20 NYC public schools the McCallister Method has delivered an innovative and disruptive approach to schooling that has proven successful in finally transforming low performing industrial schools into 21st century learning organizations Online support material includes assessments records surveys and more to be used in school design and classroom settings Psychology Wayne Weiten,1998 No higher compliment need be paid than to say as one reviewer recently did that this is the text by which all others for the course are measured Since the first edition of this book appeared professors have praised Weiten s scholarship as exemplary and the accessibility of his prose as unparalleled This is the text that redefined the way Introductory Psychology is taught by using integrative themes to develop the connections among different areas of psychological research And now with this Fourth Edition Weiten again raises the bar a notch higher for competitors Not only has he continued to refine and improve his fine text but Weiten has developed an exciting multimedia CD ROM for the course giving instructors a new engaging way to teach and students an interactive way to learn Now Weiten not only explains the interdependent links between research and applications but he gives students a fascinating way to explore psychological concepts through experiments and activities included on the PsycTrek CD ROM Using integrative themes to emphasize connections among different areas of research in psychology Weiten challenges students to grapple with the big issues and tough questions while mastering the basic concepts of psychology Throughout the Fourth Edition Weiten emphasizes the unity in psychology s intellectual heritage the themes as well as psychology s immense diversity the variations Long after your students have completed their final examinations they will retain a genuine understanding of the basic ideas about psychology and behavior A/AS Level English Language and Literature for AQA Student Book Marcello Giovanelli,Andrea Macrae,Felicity Titjen,Ian Cushing,2015-07-09 A new series of bespoke full coverage resources developed for the 2015 A Level English qualifications Endorsed for the AQA A AS Level English Language and Literature specification for first teaching from 2015 this print Student Book offers stretch opportunities for the more able and additional scaffolding for those who need it Providing full coverage of the specification the unique three part structure bridges the gap between GCSE and A Level and develops students understanding of descriptive linguistics and literary and non literary stylistics together with support for the revised coursework component and new textual intervention task An enhanced digital edition and free Teacher s Resource are also available A/AS Level English Language for AQA Student Book Marcello Giovanelli,Gary Ives,John Keen,Raj Rana,Rachel Rudman,2015-06-04 A new series of bespoke full coverage resources developed for the 2015 A Level English qualifications Endorsed for the AQA A AS Level English Language specifications for first teaching from 2015 this print Student Book is
