The Poetry of Darren Bresale Darren Bresale, 2013-05-06 This book is a tentative effort for Darren to come out of the shadows to share his feelings beliefs and ideas through his art and poetry with a much larger audience Much of the poetry in this collection was composed while incarcerated and while somewhat autobiographical it is reflective of not only some of his personal struggles but with the struggles of the downtrodden as well specifically the descendants of Africans and Native Americans Identifying with the underdog his poetry is both politically motivated and spiritually grounded in self improvement and while sometimes angrily provocative and controversial his poetry expresses love and hope towards a better future

Blue Skies for Afrikans , How I Know White People are Crazy and Other Stories Dr. Jonathan Lassiter, 2025-11-04 A clinical psychologist tells his story of navigating the field of psychology as a gay Black man In How I Know White People Are Crazy and Other Stories Dr Jonathan Lassiter pulls back the curtain on the mental health system and reveals the hurdles that Black psychologists and students are forced to endure in the field He tackles how white ideology has harmed Black patients and how it dominates America s mental health practices As a Black

gay man working as a psychologist under culturally insensitive supervisors and colleagues in America he grows more frustrated with the exclusive talk of Sigmund Freud and the narrowness of psychology study with no one like him to vent to. All this takes a mental and physical toll on him. Using his expertise in research, his own therapy, and keeping a healthy dose of hip hop R B music in his ears, Dr. Lassiter discovered a way where we can center culture in our healing. Through a series of essays, he demands that the lived and cultural experiences of people of color, LGBTQ, and disabled communities are made a part of psychology practices so that we can understand, live in, and navigate this frustrating world. This thought-provoking, funny, and searing indictment of the mental health system for patients, students, and professionals alike will leave you thinking differently about the psychologists in your life.

Education, Colonial Sickness Njoki Nathani Wane, 2024-03-18. In the last two decades, we have witnessed the quest for decolonization through research, writing, teaching, and curriculum across the globe. Calls to decolonize higher education have been overwhelming in recent years. However, the goal of decolonizing has evolved past not only the need to dismantle colonial empires but all imperial structures. Today, decolonization is deemed a basis for restorative justice under the lens of the psychological, economic, and cultural spectrum. In this book, the editor and her authors confront various dimensions of decolonizing work: structural, epistemic, personal, and relational, which are entangled and equally necessary. This book illuminates other sites and dimensions of decolonizing, not only from Africa but also other areas. This convergence of critical scholarship, theoretical inquiry, and empirical research is committed to questioning and redressing inequality in contemporary history and other African studies. It signals one of many steps in a bid to consultatively examine how knowledge and power have been both defined and subsequently denied through the sphere of academic practice.
