Motherhood in the Face of Trauma Maria Muzik, Katherine Lisa Rosenblum, 2017-11-22. This volume offers an overview of the latest research on perinatal adaptation among women who have faced trauma, loss, and/or adversity, both in childhood and/or as an adult, and describes the varied trajectories of adaptive and maladaptive coping that follow. The range of outcomes considered spans from health limiting (e.g., mental illness, substance use, unhealthy life style behaviours) to health promoting (e.g., resilience and posttraumatic growth). These outcomes are examined both in relation to mothers' experience of

motherhood and parenting and with regard to their children's lives Interpersonal trauma experienced in childhood and or adulthood can have a profound effect on how women experience the transition into motherhood from pregnancy to childbirth and postpartum caregiving Women across the globe are exposed to high rates of interpersonal violence and face the physical and emotional consequences of such events The shift into motherhood is an emotionally evocative period in a woman's life entailing not only challenges but also the potential for healing and growth Individual chapters will present state of the art research and will also highlight the voices of women who have personally experienced trauma illustrating the effects on their experiences as mothers Throughout the book the consistent emphasis is on clinical implications and on ways that providers can create a context for healing and growth with the help of current evidence based and promising treatment methods

Care Coordination in the NICU Sara L. Mosher, 2018-08-28 Focuses on nurturing the emotional health of patients and families to ensure improved outcomes This innovative clinical practice resource for neonatal nurses embodies family centered care strategies for optimal outcomes through every phase of the NICU experience While rigorous programs provide the knowledge and skills to care for the physical needs of high risk mothers and neonates NICU practitioners often find themselves unprepared to support the emotional health of these patients and their families Care Coordination in the NICU provides the education inspiration and resources to NICU health professionals so they can learn how to be emotionally supportive to their patient's entire family unit The book addresses a variety of challenging patient and family issues that occur in the NICU as they relate to care coordination throughout the process Each chapter focuses on a particular area of the perinatal neonatal family journey and includes current medical research clinical examples and recommendations for best practice alongside case studies that depict families experiencing a perinatal challenge Most valuable of all each chapter also includes stories directly from the source the families who have experienced the fear isolation and uncertainty of an NICU experience and have greatly benefited from the emotional support of caring practitioners

Key Features Examines the gamut of challenging patient and family issues that occur in the NICU as they relate to care coordination throughout the process Helps practitioners to incorporate family centered care into their daily practices Discusses effective listening and communication strategies for families in crisis Includes examples of practice improvement strategies to improve clinical outcome and reduce the risk of re hospitalization Provides a Case Based Learning section depicting real world scenarios for discussion and problem solving Includes links to abundant resources and educational material Contains chapters on palliative care and bereavement and supporting patients with special challenges
