Physical Sciences Paper 1 September 2013 Memo

Paul Allin, David J. Hand

Physical Sciences Paper 1 September 2013 Memo:

The Political Bubble Mark Latham, 2014-08-01 Australians once trusted the democratic process While we got on with our lives we assumed our politicians had our best interests at heart Not anymore That trust has collapsed Mark Latham joined the Labor Party in the late 1970s hoping to improve people s lives through parliamentary service Twenty five years later the Opposition Leader ended up as disillusioned as the rest of us The scorching honesty of The Latham Diaries ensured he d burned his political bridges but ostracism from the Canberra Club has its advantages In The Political Bubble Mark Latham is free to explore how parliamentary democracy has lost touch with the people it s supposed to represent As with most institutions at risk politics has become more tribal with left and right wing fanatics dominating formerly robust mainstream parties After the disappointment of the Rudd Gillard years Tony Abbott promised to restore trust in Australian politics but as with most of his promises it was dispensable The Political Bubble looks at the new government s policies how Abbott is adding to distrust not solving the problem What can be done about this democratic deficit Can our parliamentary system realign itself with community expectations or has politics become one long race to the bottom A brilliant analysis of Australia in the era of Tony Abbott and fanatical right wing politics ROBERT MANNE **NASA Technical Memorandum**

land to nature as the world reaches peak farmland A proven link between increases in national wealth and reductions in air and water pollution Global warming is a problem but the cost of clean energy could soon fall below that of fossil fuels In *The End of Doom* Bailey avoids polemics and offers a balanced fact based and ultimately hopeful perspective on our current environmental situation Now isn't that a breath of fresh air **Chemical news and Journal of physical science** ,1775
