Philosophy as a Literary Art Costica Bradatan, 2016-04-14

Despite philosophers growing interest in the relation between philosophy and literature in general over the last few decades comparatively few studies have been published dealing more narrowly with the literary aspects of philosophical texts The relationship between philosophy and literature is too often taken to be literature as philosophy and very rarely philosophy as literature It is the dissatisfaction with this one sidedness that lies at the heart of the present volume Philosophy has nothing to lose by engaging in a serious process of literary self analysis On the contrary such an exercise would most likely make it stronger more sophisticated more playful and especially more self reflexive By not moving in this direction philosophy places itself in the position of not following what has been deemed since Socrates at least the worthiest of all philosophical ideals self knowledge This book was originally published as a special issue of The European Legacy

Gilles Deleuze Constantin

V. Boundas, 2009-04-15 Gilles Deleuze The Intensive Reduction brings together eighteen essays written by an internationally acclaimed team of scholars to provide a comprehensive overview of the work of Gilles Deleuze one of the most important and influential European thinkers of the twentieth century Each essay addresses a central issue in Deleuze's philosophy and that of his regular co author Félix Guattari that remains to this day controversial and unsettled Since Deleuze's death in 1994 the technical aspects of his philosophy have been largely neglected These essays address that gap in the existing scholarship by focusing on his contribution to philosophy Each contributor advances the discussion of a contested point in the philosophy of Deleuze to shed new light on as yet poorly understood problems and to stimulate new and vigorous exchanges regarding his relationship to philosophy schizoanalysis his aesthetic ethical and political thought Together the essays in this volume make an invaluable contribution to our understanding of Deleuze's philosophy

Medieval Philosophy Andrew W Arlig, 2023-07-11 This book presents a new contemporary introduction to medieval philosophy as it was practiced in all its variety in Western Europe and the Near East It assumes only a minimal familiarity with philosophy the sort that an undergraduate introduction to philosophy might provide and it is arranged topically around questions and themes that will appeal to a contemporary audience In addition to some of the perennial questions posed by philosophers such as Can we know anything and if so what What is the fundamental nature of reality and What does human flourishing consist in this volume looks at what medieval thinkers had to say for instance about our obligations towards animals and the environment freedom of speech and how best to organize ourselves politically The book examines certain aspects of the thought of several well known medieval figures but it also introduces students to many important yet underappreciated figures and traditions It includes guidance for how to read medieval texts provokes reflection through a series of study questions at the end of each chapter and gives pointers for where interested readers can continue their exploration of medieval philosophy and medieval thought more generally

Key Features Covers the contributions of women to medieval philosophy providing students with a fuller understanding of who did philosophy during the Middle Ages Includes a focus on certain topics that are usually ignored such as animal rights love and political philosophy providing students with a fuller range of interests that medieval philosophers had Gives space to non Aristotelian forms of medieval thought Includes useful features for student readers like study questions and suggestions for further reading in each chapter

Literature and Understanding Jon Phelan, 2020-10-08 Literature and Understanding investigates the cognitive gain from literature by focussing on a reader's close analysis of a literary text It examines the meaning of literature outlines the most prominent positions in the literary cognitivism debate explores the practice of close reading from a philosophical perspective provides a fresh account of what we mean by understanding and in so doing opens up a new area of research in the philosophy of literature This book provides a different reply to the challenge that we can't learn anything worthwhile from reading literary fiction It makes the innovative case that reading literary fiction as literature rather than as fiction stimulates five relevant senses of understanding The book uses examples of irony metaphor play with perspective and ambiguity to illustrate this contention Before arguing that these five senses of understanding bridge the gap between our understanding

of a literary text and our understanding of the world beyond that text The book will be of great interest for researchers scholars and post graduate students in the fields of aesthetics literary theory literature in education and pedagogy New Directions in Philosophy and Literature Rudrum David Rudrum,2019-08-22 This forward thinking non traditional reference work uniquely maps out how new developments in 21st century philosophy are entering into dialogue with the study of literature Going beyond the familiar methods of analytic philosophy and with a breadth greater than traditional literary theory this collection looks at the profound consequences of the interaction between philosophy and literature for questions of ethics politics subjectivity materiality reality and the nature of the contemporary itself **Reading Ideas in Victorian Literature** Patrick Fessenbecker,2020-05-01 This title argues against the repeated emphasis on literary form and for the artistic importance of literary content It will appeals to those interested in philosophy and literature especially the philosophy of literature The book brings together thinkers from the analytic and continental traditions in aesthetics
