Photography in Educational Research Susie Miles, Andy Howes, 2014-11-27 Photography in education involves the use of photographs to engage research participants in representing and reflecting upon their own experiences This book explores how photographic images can be used in a range of educational settings in different cultural contexts as a method of facilitating communication and reflection on significant issues in people's lives It considers the opportunities that are created through the use of photography as a visual research method and addresses fundamental issues about identity representation participation and power which underlie participatory practice Bringing together a variety of international contributors chapters describe and reflect on experiences of using photography situating them in a critical framework to provoke informed applications of these processes The collection adopts a broad view of education considering voices of people of different ages who are at various stages on their educational journey or who have diverse perspectives on their educational experience young British Muslims trainee science teachers audiologists teachers of deaf children mobile teacher educators working in conflict zones young people with disabilities community workers and school students in countries as diverse as Australia Burma Cyprus England Ethiopia Kenya the United States and Sudan Photography in Educational Research will be key reading for educational researchers postgraduate students studying research methods and ethics tutors working in higher education and individual practitioners and teams within schools interested in young people's voices ethnicity mental health global citizenship and school development

Promoting Qualitative Research Methods for Critical Reflection and Change Wang, Viktor, 2021-04-16 The philosophical foundation of emancipatory knowledge lies in critical theory In this paradigm instrumental and communicative knowledge are not rejected but are limited If we do not question current scientific and social theories and accepted truths we may never realize how we are constrained by their inevitable distortions and errors Without the possibility of critical questioning of ourselves and our beliefs such constraining knowledge can be accepted by entire cultures The research paradigm that is relevant for constructing this kind of knowledge is the critical paradigm Data are always qualitative and have specific methods of research Quantitative research unquestionably has a place and is fundamental to scientific advances but qualitative research delves into what it is to be human Through qualitative research we gain insight into communicative knowledge its rich nature and the mechanisms by which communicative knowledge is formed and interpreted Qualitative research enables the necessary exploration and critical analysis of social systems and uncovers and facilitates critical reflections on the inevitable assumptions which shape social behavior and interaction thereby stimulating and empowering change Promoting Qualitative Research Methods for Critical Reflection and Change provides readers with a comprehensive array of qualitative research methods which can be implemented in a variety of contexts for a variety of purposes The chapters explore the impact uses and methodologies for qualitative research across various fields of research This book is ideal for practitioners researchers academicians and

students interested in the use of qualitative research methods *Photographic Elicitation and Narration in Teachers Education and Development* Antonio Bautista García-Vera, 2023-01-23 This open access book discusses the functionality of the use of the language of photography in teachers initial and ongoing training It analyzes the nature of photography as a representation system facilitating inquiry and reflection on its practice for teachers and evocating on theories and beliefs that may guide their work in classrooms Photography is used to represent symbolically and affectively possible contradictions in teaching activities or the inconsistencies between planned teaching tasks and the educational purposes pursued Resolving these conflicts is one of the ways to promote professional development This book also describes photo elicitation and photographic storytelling as work procedures By analyzing the contributions of these techniques the development of teachers is improved Learning to Teach Science in the Secondary School Lindsay Hetherington, Luke Graham, Darren Moore, 2024-06-27 Learning to Teach Science in the Secondary School is an indispensable guide to the process practice and reality of learning to teach science in a busy secondary school Written by experienced teachers and expert academics it explores core debates and topics in science education providing practical and insightful advice with research and theory to support your development as a teacher This fully updated fifth edition focuses on the knowledge and skills you will need to develop your science teaching including key approaches to teaching physics chemistry and biology lesson and curriculum planning and assessment There are also new chapters on Safety in science teaching The science of learning for teaching science Mathematics and learning science Science for social justice Inclusive and adaptive science teaching Making use of research practical guidance for science teachers Written with university and school based initial teacher education in mind and including learning objectives lists of useful resources and specially designed tasks in every chapter Learning to Teach Science in the Secondary School offers all student and early career teachers accessible and comprehensive guidance to support the journey of becoming an effective science teacher **Culturally Responsive Education** Elina Lehtomäki, Hille Janhonen-Abreuquah, George Kahangwa, 2017-04-21 11 Motives and motivations for mature women s participation in higher education in Ghana Introduction Conceptualising the study Mature women s motives and motivations for HE participation Method Research context and participants Results and discussion Motivations for returning to study Parents motivation Partners encouragement socio economic status and childcare arrangements Geographical relocation and social networks Motives for entering HE Higher education as a tool for breaking the cycle of poverty Personal development Everybody was going so I wanted to go Conclusions Concluding remarks 12 Epilogue reflections on cultural responsiveness Index *The SAGE Encyclopedia of Children and Childhood Studies* Daniel Thomas Cook, 2020-04-20 This four volume encyclopedia covers a wide range of themes and topics including Social constructions of childhood Children s rights Politics representations geographies Child specific research methods Histories of childhood Transnational childhoods Sociology anthropology of childhood theories and Theorists key concepts This interdisciplinary encyclopedia will be of interest to students and
