The International Distribution of News Jonathan Silberstein-Loeb, 2014-02-24 This book traces the history of international news agencies and associations around the world from 1848 to 1947 Jonathan Silberstein Loeb argues that newspaper publishers formed news associations and patronized news agencies to cut the costs of news collection and exclude competitors from gaining access to the news **The Americanization of the British Press, 1830s-1914 J.**

Wiener, 2011-10-03 The first book to compare and contrast the rise of mass circulation press in Britain and America It provides insights into the origins of tabloid journalism and explores a range of cross cultural and literary issues tracing the history of key newspapers and the careers of influential journalists such as Bennett Russell Harmsworth and Pulitzer

Freemasonry and the Press in the Twentieth Century Paul Calderwood, 2016-04-15 By the end of the twentieth century Freemasonry had acquired an unsavoury reputation as a secretive network of wealthy men looking out for each others interests The popular view is of an organisation that if not actually corrupt is certainly viewed with deep mistrust by the press and wider society Yet as this book makes clear this view contrasts sharply with the situation at the beginning of the century when the public s perception of Freemasonry in Britain was much more benevolent with numerous establishment figures including monarchs government ministers archbishops and civic worthies enthusiastically recommending Freemasonry as the key to model citizenship Focusing particularly on the role of the press this book investigates the transformation of the image of Freemasonry in Britain from respectability to suspicion It describes how the media projected a positive message of the organisation for almost forty years based on a mass of news emanating from the organisation itself before a change in public regard occurred during the later twentieth century This change in the public mood the book argues was due primarily to Masonic withdrawal from the public sphere and a disengagement with the press Through an examination of the subject of Freemasonry and the British press a number of related social trends are addressed including the decline of deference the erosion of privacy greater competition in the media the emergence of more aggressive and investigative journalism the consequences of media isolation and the rise of professional Public Relations The book also illuminates the organisation s collisions with nationalism communism and state welfare provision As such the study is illuminating not only for students of Freemasonry but those with an interest in the wider social history of modern Britain

sporting journalism It is the story of his career from boy reporter in 1870s Lancashire to editor of the influential Manchester based weekly Athletic News and then grand old man of Fleet Street sports writing in the 1920s and 30s The book also presents the story of others too the first journalists to turn action into news as raw carnivalesque violent pastimes were replaced by codified and commercialised games Detailing the history of their trade the book searches for the roots of sports journalism pushing for the first time the newspaper reporter to the foreground in the shared history of the press and sport Editorial recruitment training writing styles pay status rivalry and camaraderie technology celebrity the press box the player reporter and drinking culture are all examined as are the values men like Catton claimed sport at its best represented
