Restoring Values Keys To Integrity Ethical Behaviour And Good Governance:

Ethics for Governance B. P. Mathur, 2015-06-12 This book provides a comprehensive overview of India's public services and bureaucratic systems and explores why widespread corruption and inefficient delivery have slowed development. It discusses the underlying reasons for the prevailing inefficiency in public services, examines the complex linkages between ethics-based public service, India's cultural and spiritual heritage, and its current economic development model, and outlines ways to create an ethics code and an environment that is conducive to better administration and good governance. Lucid, accessible, and meticulously researched, this will prove essential to scholars and students of public administration, governance studies, and political science, particularly bureaucrats, policy makers, and civil service aspirants. **Ethical and Social**

Marketing in Asia Bang Nguyen, Chris Rowley, 2015-02-16 There is a growing interest in firms' adoption of ethical and social marketing approaches among academics and practitioners alike. Ethical Marketing is the application of ethics into the marketing process, and Social Marketing is a concept that seeks to influence a target audience for the greater social good. Ethical and Social Marketing in Asia examines this so far unexplored area, investigating why differing cultures and consumption behaviours require different emphasis in different markets. The diversity of the Asian countries provides a perplexing environment to the development and management of ethical and social marketing. The belief that bottom-line profits is enough for a company is often not favourably viewed by Asian countries emphasising collective social and long-term benefits for the people and country. Due to these interesting characteristics and complexities, the study of ethical and social marketing in Asia is a timely topic. The first chapters introduce Ethical Marketing in Asia, followed by case studies of how the approach is used across 14 diverse economies geographically based on clusters: North East China, Taiwan, Japan, South Korea, South East, Singapore, Malaysia, Thailand, Vietnam, Cambodia, the Philippines, Indonesia, and South Asia, India, Pakistan, Bangladesh. The second part discusses Social Marketing using the same sequence of regions and economies, and the third part explores the unique link to Fairness Management in Asia, followed by a conclusion. Explores the nature of ethical and social marketing from an Asian perspective. Discusses current ethical and social marketing researches and practices in different areas, industries, commercial and non-commercial sectors. Serves as an invaluable resource for marketing academics and practitioners requiring more than anecdotal evidence of different ethical and social marketing applications. Compares and contrasts unethical situations covering important aspects related to ethics, society, and fairness. Includes an interesting mix of theory, research findings, and practices. **Restoring Values** E. Sreedharan, Bharat Wakhlu, 2010-07-13 This volume is
