are preparing to go abroad to work as nurse practitioners *The Network Inside Out* Annelise Riles,2000 A fascinating study of institutional knowledge practices **Sexual and Reproductive Health** Paul Van Look,Kristian Heggenhougen,Stella R. Quah,2011-01-10 This volume presents the highlights of current global thinking about sexual and reproductive health Major changes have taken place in the last 15 years in the way decision makers think about the subject and the manner in which programmes deliver comprehensive sexual and reproductive health services The turning point was the International Conference on Population and Development ICPD held in Cairo Egypt in 1994 ICPD was a watershed for several reasons First more than in any of the preceding United Nations population conferences the issue of population was clearly placed as being central to sustainable development Second the narrow focus on population growth the population bomb which had been a neo Malthusian concern and preoccupation ever since the Club of Rome published its 1972 report Limits to Growth was replaced by the comprehensive concept of sexual and reproductive health Third and linked to the definition and introduction of the reproductive health concept was the strong call for a paradigm shift away from a policy environment driven by demographic considerations sometimes to the point of using coercion in family planning services in order to reach demographic targets to an environment that recognized the right of individuals to make their own choices And last but not least ICPD as well as the Fourth World Conference on Women FWCW held the following year in Beijing People's Republic of China strongly emphasized that the rights of women and men to good sexual and reproductive health are firmly grounded in universal human rights Provided by publisher **Female and Male Contraception** Maria Cristina Meriggiola,Kristina Gemzell-Danielsson,2021-06-01 This book provides healthcare professionals the medical community residents and students with an up to date handbook on current female and male contraceptive options It illustrates the process of contraceptive development from ancient times to steroid discovery up to the most recent formulations that provide not only an optimal contraceptive efficacy but also complimentary health benefits for women It offers a comprehensive overview of the current knowledge on this topic ranging from biological contraceptive mechanisms to the challenges of contraceptive use in different clinical conditions It also presents reviews of the current latest including preclinical and clinical research to provide detailed and up to date information on recently developed contraceptives It also features a section on counseling which is highly relevant to optimal contraceptive provision and compliance Each chapter has been written by a leading expert in the field and provides a comprehensive reference on the topic as well as practical implications As such this book provides accessible and authoritative information for clinicians in their everyday practice and for students interested in expanding their knowledge on the topic The Male Pill Nelly Oudshoorn,2003-09-10 The technology has been there for over 20 years how come there is still no male pill on the market **Contemporary Obstetrics and Gynecology for Developing Countries** Friday Okonofua,Joseph A. Balogun,Kunle Odunsi,Victor N. Chilaka,2021-08-05 This book is a comprehensive and easy to read guide to obstetrics and gynecology in developing countries Although significant progress has

been made towards the reduction of maternal mortality and morbidity globally they are still unacceptably high in developing countries This can be directly or indirectly tied to poor quality maternal health care and lack of access to cost effective comprehensive healthcare Health practitioners in developing countries also contend with trying to keep abreast of recent developments in obstetrics and gynecology while dealing with lack of time resources and access to relevant information This textbook was thus created by experts in obstetrics and gynecology with extensive experience in African clinical settings and consultants in developed countries to teach proper and accurate diagnosis treatment and management of gynecologic and obstetric health issues within the context of developing countries This second edition has been fully updated throughout with an added 25 chapters that cover topics such as reproductive health gynecological cancers and research methods The book is divided into six sections Women s Reproductive Health Obstetrics Medical and Surgical Disorders in Pregnancy General Gynecology Gynecological Malignancies Health Systems Organization Research Methodology and Biostatistics These section topics have been carefully covered by expert authors with the use of valid scientific data policy instruments and adapted to the cultural and social context of developing countries with particular in depth coverage of conditions that have greater prevalence and incidence in developing countries Each chapter also focuses on filling gaps in knowledge with a distinct pedagogical approach starting with a set of learning objectives and ending with key takeaways for the chapter This is an ideal guide for residents medical students practitioners of obstetrics and gynecology midwives general practitioners and pediatricians particularly those working in developing countries

Reconceiving the Second Sex Marcia C. Inhorn, 2009

Extensive social science research particularly by anthropologists has explored women s reproductive lives their use of reproductive technologies and their experiences as mothers and nurturers of children Meanwhile few if any volumes have explored men s reproductive concerns or contributions to women s reproductive health Men are clearly viewed as the second sex in reproduction This volume argues that the marginalization of men is an oversight of considerable proportions and thereby seeks to break the silence surrounding men s thoughts experiences and feelings about their reproductive lives It sheds new light on male reproduction from a cross cultural global perspective focusing not only upon men in Europe and America but also those in the Middle East Asia and Latin America Both heterosexual and homosexual married and unmarried men are featured in this volume which assesses concerns ranging from masculinity and sexuality to childbirth and fatherhood Thus men are brought back into the equation as reproductive partners progenitors fathers nurturers and decision makers

Adopting the Beat of Expression: An Mental Symphony within **Reproductive Health Women And Mens Shared Responsibility**

In a global consumed by displays and the ceaseless chatter of fast interaction, the melodic splendor and psychological symphony developed by the published word often diminish in to the backdrop, eclipsed by the constant noise and disturbances that permeate our lives.
