Resistance Space And Political Identities The Making Of Counter Global Networks:

Resistance, Space and Political Identities David Featherstone, 2008-09-22 Utilizing research on networked struggles in both the 18th century Atlantic world and our modern day Resistance Space and Political Identities The Making of Counter Global Networks challenges existing understandings of the relations between space politics and resistance to develop an innovative account of networked forms of resistance and political activity Explores counter global struggles in both the past and present including both the 18th century Atlantic world and contemporary forms of resistance Examines the productive geographies of contestation Foregrounds the solidarities and geographies of connection between different place based struggles and argues that such solidarities are essential to produce more plural forms of globalization International Communism and Transnational Solidarity: Radical Networks, Mass Movements and Global Politics, 1919-1939, 2016-11-21
