Transcendental Resistance Johannes Voelz, 2010 A timely and engrossing critique of the New Americanists

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1972 *Resistance to Tyrants, Obedience to God* Dustin A. Gish, Daniel P. Klinghard, 2013-08-28 Both reason and religion have been acknowledged by scholars to have had a profound impact on the foundation and formation of the American regime But the significance pervasiveness and depth of that impact have also been disputed While many have approached the American founding period with an interest in the influence of Enlightenment reason or Biblical religion they have often assumed such influences to be exclusive irreconcilable or contradictory Few scholarly works have sought to study the mutual influence of reason and religion as intertwined strands shaping the American historical and political experience at its founding The purpose of the chapters in this volume authored by a distinguished group of scholars in political science intellectual history literature and philosophy is to examine how this mutual influence was made manifest in the American Founding especially in the writings speeches and thought of critical figures Thomas Paine Benjamin Franklin George Washington Thomas Jefferson James Madison Alexander Hamilton Charles Carroll and in later works by key interpreters of the American Founding Alexis de Tocqueville and Abraham Lincoln Taken as a whole then this volume does not attempt to explain away the potential opposition between religion and reason in the American mind of the late eighteenth and early nineteenth centuries but instead argues that there is a uniquely American perspective and political thought that emerges from this tension The chapters gathered here individually and collectively seek to illuminate the animating affect of this tension on the political rhetoric thought and history of the early American period By taking seriously and exploring the mutual influence of these two themes in creative tension rather than seeing them as diametrically opposed or as mutually exclusive this volume thus reveals how the pervasiveness and resonance of Biblical narratives and religion supported and infused Enlightened political discourse and action at the Founding thereby articulating the complementarity of reason and religion during this critical period

Plowshares Kristen Tobey, 2016-07-28 In September 1980 eight Catholic activists made their way into a Pennsylvania General Electric plant housing parts for nuclear missiles Evading security guards these activists pounded on missile nose cones with hammers and then covered the cones in their own blood This act of nonviolent resistance was their answer to calls for prophetic witness in the Old Testament They shall beat their swords into plowshares and their spears into pruning hooks Nation shall not take up sword against nation they shall never again know war Plowshares explores the closely interwoven religious and social significance of the group's use of performance to achieve its goals It looks at the group's acts of civil disobedience such as that undertaken at the GE plant in 1980 and the Plowshares behavior at the legal trials that result from these protests Interpreting the Bible as a mandate to enact God's kingdom through political resistance the Plowshares work toward symbolic disarmament with the aim of eradicating nuclear weapons Plowshares activists continue to
