Modern Architecture Vincent Joseph Scully,1989 **Modern Architecture** Vincent Scully,1965 **Modern Architecture** Vincent Scully (Jr.), **Modern Architecture** Vincent Joseph Scully,1956 **Modern Architecture** ,1961
Architecture, Democracy and Emotions Till Großmann,Philipp Nielsen,2018-11-06 After 1945 it was not just Europe's parliamentary buildings that promised to house democracy hotels in Turkey and Dutch shopping malls proposed new democratic attitudes and feelings Housing programs in the United Kingdom the United States and the Soviet Union were designed with the aim of creating new social relations among citizens and thus better more equal societies Architecture Democracy and Emotions focuses on these competing promises of consumer democracy welfare democracy and socialist democracy Spanning from Turkey across Eastern and Western Europe to the United States the chapters investigate the emotional politics of housing and representation during the height of the Cold War as well as its aftermath post 1989 The book assembles detailed research on how the claims and aspirations of being democratic influenced the affects of architecture and how these claims politicized space Architecture Democracy and Emotions contributes to the study of Europe's democratic age beyond Cold War divisions without diminishing political differences The combination of an emotional history of democracy with an architectural history of emotions distinguishes the book's approach from other recent investigations into the interconnection of mind body and space Design & Democracy Maziar Rezai,Michael Erlhoff,2021-04-19 Design affects all social contexts and is therefore intensively instrumentalized both by the politically powerful and their critics Both functions of design and their inevitable combination are presented in this book in precise detail Authors from various countries present previously unknown and innovative examples of democratic activities conducted through design This publication is therefore aimed not only at design professionals but also at the general public of all countries Architecture and Democracy Claude Fayette Bragdon,2007-08-01 Ornament in its primitive manifestations is geometrical rather than naturalistic This is in a manner strange that the abstract and metaphysical thing should precede the concrete and sensuous from The World Order One of the most respected philosophers of architecture in the early 20th century Bragdon here makes a plea to his fellow architects and the public at large to choose organic designs for public structures and to reject the abstract modern architecture coming into vogue in the post World War I period Examining building design on either side of the great modernizing divide of the war he argues for a softer more human aesthetic and offers numerous imaginary compositions the products of his own fanciful yet logical creativity to illustrate his points First published in 1918 this highly readable volume has much to contribute to today's discourse on how to organize the public realm Other works by Bragdon available from Cosimo Classics More Lives Than One The Beautiful Necessity Episodes from An Unwritten History and A Primer of Higher Space The Fourth Dimension American architect stage designer and writer CLAUDE FAYETTE BRAGDON 1866 1946 helped found the Rochester Architectural Club in the city where he

made his greatest mark as a building designer with structures including Rochester Central Station Rochester Institute of Technology and the First Universalist Church he also designed Peterborough Bridge in Ontario In later life Bragdon worked on Broadway as scenic designer for 1930s productions of Cyrano de Bergerac and Hamlet among others

Building Democracy in Contemporary Russia Sarah L. Henderson, 2018-07-05 Can foreign donors help build new democracies In the 1990s public and private organizations such as USAID and the Soros Foundation poured huge amounts of money and expertise into Russia to help build the dream of a vibrant democratic society Sarah L Henderson argues that despite the altruistic intentions of foreign assistance agencies and domestic activists foreign aid designed to spur civic growth has had unintended consequences Drawing on extensive field work survey research and work experience for several funding agencies in Moscow in the late 1990s Henderson focuses on donor efforts to support the emerging community of nongovernmental organizations and in particular on efforts to build a functioning women s movement in Russia Her intimate knowledge of Russia s growing NGO community informs a worrisome finding foreign aid has made a tremendous difference but not in altogether expected or positive ways New Russian civic groups serve either the needs of an indigenous clientele or the demands of the foreign aid bureaucracy but rarely both Henderson s research and experience show that while aid has kept a fledgling civic community alive it is a civic community that is disconnected from its own domestic audience The book suggests that large flows of foreign aid have in some ways damaged the long term prospects for democratization in Russia

Building Democracy in Brazil Javier Martínez-Lara, 2016-07-27 Building Democracy in Brazil is an empirical analysis of the constitution making process that Brazil underwent in the 1980s as it moved from an authoritarian military regime to a democratic civilian government The study explores the institutional and political context from which the process departed as well as the choices of the key social and political actors It then examines in depth the different stages of the constitutional elaboration
