Mobile Virtual Work Mobile Virtual Work:

Mobile Virtual Work J.H. Erik Andriessen, Matti Vartiainen, 2005-12-16 Dear Reader This is a book about mobile virtual work It aims at clarifying the basic concepts and showing present practices and future challenges The roots of the book are in the collaboration of few European practitioners and searchers who met each other under the umbrella of the Swedish SALTSA programme see next page in January 2002 in Stockholm The group was first called ICT Mobility and Work Organisation but redefined itself quickly as Mobile Virtual Cooperative Work group The change of the name reflects the development of reasoning in the group We could not find much material on mobile work certainly not systematic studies though a growing interest in mobile technologies and services could be found Practices of telework and virtual organizations were better known but we were convinced that the combination with mobile work was so thing different and new Our main target became to understand what it was all about The next step was an expert meeting in October 2004 at R n s Castle again in Sweden A wider group of experts was invited to present their views on mobile virtual work and ideas about book chapters from different perspectives of working life Some of the expertise could be found through the network of the AMI Work family created by the New Working En ronments unit of the European Commission s Information Society Directorate General Also close collaboration was developed with the related MOSAIC program *High Velocity Business Operations* Yemmanur Jayachandra, 2020-08-13 This Element deals with the know how and show how to accomplish high velocity business operations The basis of these operations is real time data and low latency processing Relevant applications are pervasive due to the emerging technologies of IoT 5G AI and data analytics This Element explores theories and methods of configuring formulating and implementing high velocity business operations with properly designed and developed platforms and processes Current mobile transformation is enabling the unwiring of businesses de territorializing them and creating more opportunities for these operations High velocity business processes increase throughput and efficiency offering first mover advantage They also provide location independence due to use of mobile platforms and devices smartphones tablets and wearables This Element present mobility as a critical attribute of high velocity business operations taking advantage of world wide resources and expertise with well designed mobile platforms and their data *Mobile Work, Mobile Lives*, 2009-03-25 With the ever increasing functionalities of information and communication technologies as well as the spatial and temporal transformations brought about by shifts in global work patterns mobile work has become more important than ever to workers and employers The objective of this volume is to illustrate through narratives the patterns of mobility that are altering the meaning of work and how work is positioned with respect to the rest of life The contributors to this volume are anthropologists who not only study remote nomadic and mobile workers but who are also remote nomadic and mobile themselves They share observations about the evolution of their personal and professional identities their attempts to define or merge boundaries between work and personal life and their struggles to present the value of their work to others Their

descriptions of the tensions inherent in mobile life and work and the strategies they employ to overcome them greatly further our understanding of the interplay of self work place and technology and point to future research directions for the anthropology of work
