How did art reform fit into the many initiatives for social and cultural change that contributed to the New Cultural Movement that transformed the Chinese cultural landscape during the Republican period Modern art for a modern China was the rallying cry of Chinese intellectuals many of whom were artists critics writers poets and educators Wang describes how these groups discussed and implanted changes in China's conception and practice of art She demonstrates how art reforms fit into the many initiatives for social and cultural change that contributed to the New Cultural Movement that transformed the Chinese cultural landscape during the Republican period In doing so she analyses two key areas in the intellectual history of Republican China

China's art reform in the early decades of the twentieth century and the connection and intersection between colonialism, nationalism and cosmopolitanism including their direct impact on the development of art and art practice in China. *Modern Art for a Modern China* is an invaluable resource for scholars and students of China's twentieth-century intellectual history and art history. *Handbook for Asian Studies Specialists* Noriko Asato, 2013-10-08 An indispensable tool for librarians who do reference or collection management, this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies. Chinese, Japanese and Korean. *Handbook for Asian Studies Specialists: A Guide to Research Materials and Collection Building Tools* is the first work to cover reference works for the main Asian area languages of China, Japan and Korea. Several leading Asian Studies librarians have contributed their many decades of experience to create a resource that gathers major reference titles, both print and online, that would be useful to today's Asian Studies librarian. Organized by language group, it offers useful information on the many subscription-based and open-source electronic tools relevant to Asian Studies. This book will serve as an essential resource for reference collections at academic libraries. Previously published bibliographies on materials deal with China or Japan or Korea, but none have coalesced information on all three countries into one work or are written in English. And unlike the other resources available, this work provides the insight needed for librarians to make informed collection management decisions and reference selections. *Surrealism and the People's Republic of China* Lauren Walden, 2025-11-13 This study investigates cultural exchange between the Surrealist movement and the People's Republic of China. 1949-present. Surrealist art was officially prohibited under Mao's rule. 1949-1976. However, the book interrogates potent tensions in clandestinely created surrealist artworks by Zhao Shou and Sha Qi, who discovered the movement while studying abroad. Furthermore, Walden explores how several European Surrealists aligned Chinese calligraphy with automatism, as well as Michel Leiris and Marcel Mariën's travels to Maoist China and their diametrically opposed visions of the nation. Amidst post-socialism, the book posits that the 85 New Wave consciously employed Surrealism to process the traumatic Cultural Revolution (1966-1976) and react to newfound societal freedoms. Subsequently, the volume considers why a new artistic tendency of surrealist pop emerged in the 1990s. At present, Lauren Walden reveals how Surrealism has become officialised and even promoted by Chinese authorities owing to revolutionary resonances between traditional Chinese art and the western avant-garde. The book will be of interest to scholars working in art history, Chinese studies and Surrealism. Michael Sullivan, recognized throughout the world as a leading scholar of Chinese art, vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic

expression and the historical processes that occurred within various movements A substantial biographical index of twentieth century Chinese artists is a valuable addition to the text Sullivan discusses artists and their work against China's background of oppression and relaxation despair and hope He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere
