Orphans of Middle Mars: Part 1 CJ East,2015-03-27 In a tired world of 2035 the governments and institutions begin to fail as the largest public relations effort in Earth history captures the hope of mankind Four nations and Google focus their attention on an International Mars Colony igniting the imagination of the jaded youth with the inclusion of six teenagers on a three year assignment Kinch McGrath washed out of the final stages of the Team USA selection and was immediately recruited by Google Having been raised in the Warrior Guild the son of a war hero and the grandson of one of the Warrior Guild founders his tactical and strategic training was the asset Google needed to round out their scientific team A dire situation on Earth causes tensions to rise as Kinch makes contact with what he believes to be an alien life form This revelation leads him down an incredible path filled with danger adventure and understanding his true purpose Join Kinch as he fights to survive and to protect the Orphans of Mars **Effective Compensatory Education Sourcebook** ,1991

Taking The Field Michael A. Messner,2002-07-17 In the past when sport simply excluded girls the equation of males with active athletic power and of females with weakness and passivity seemed to come easily almost naturally Now however with girls and women s dramatic movement into sport the process of exclusion has become a bit subtler a bit more complicated and yet as Michael Messner shows us in this provocative book no less effective In Taking the Field Messner argues that despite profound changes the world of sport largely retains and continues its longtime conservative role in gender relations To explore the current paradoxes of gender in sport Messner identifies and investigates three levels at which the center of sport is constructed the day to day practices of sport participants the structured rules and hierarchies of sport institutions and the dominant symbols and belief systems transmitted by the major sports media Using these insights he analyzes a moment of gender construction in the lives of four and five year old children at a soccer opening ceremony the way men s violence is expressed through sport the interplay of financial interests and dominant men s investment in maintaining the status quo in the face of recent challenges and the cultural imagery at the core of sport particularly televised sports Through these examinations Messner lays bare the practices and ideas that buttress as well as those that seek to disrupt the masculine center of sport Taking the Field exposes the subtle and not so subtle ways in which men and women collectively construct gender through their interactions interactions contextualized in the institutions and symbols of sport **1980**
