Oscar Niemeyer Houses:

Oscar Niemeyer Houses Alan Hess, 2006 Oscar Niemeyer is one of the greatest architects of our time Hugely influential his work has added a new dimension to modern architecture in the twentieth century The designer of Brasilia showed that the rhythmic sensuous lines of Brazilian Modernism were as legitimately modern as the rectilinear lines of the Bauhaus Oscar Niemeyer Houses showcases the houses built by this seminal modern master in a lavish format that finally does justice to his extraordinary work Viewed as a collection these houses serve to demonstrate the wide range of Niemeyer s prodigious genius The designs show a personal and eclectic facet to Niemeyer s creative imagination a side of the master little known and under appreciated Often built for family members or major clients they show a wealth of solutions that respond to a wide range of sites the steep hillsides of Rio the Atlantic beach shore the rain forest and the residential neighborhoods of Rio and Sao Paulo This celebrated work stands as an enduring and notable tribute to one of the last of the international masters of Modernism

Modernist Paradise Michael Webb, 2007 Celebrating the finest examples of mid century modernist design a lavishly illustrated tribute captures both the architectural features of the homes as well as notable collections of modernist furniture accessories and other key elements

Oscar Niemeyer Buildings Alan Hess, 2009 With specially commissioned colour photography this is a re evaluation of the great buildings of Oscar Niemeyer These are the buildings Niemeyer himself considers his most important work including works in Brazil France Italy and Algeria *Plans, Sections and Elevations* Richard Weston, 2004 CD ROM contains files for all of the plans sections and elevations included in the book

Oscar Niemeyer Stamo Papadaki, 1960 In the history of architecture examples of lyrical buildings buildings as the result of a poetic image rather than of a function are few and far apart in time and space be it the temple of Apteros Nike a church by Guarino Guarini or the Eiffel Tower This is easy to understand In a world conditioned by physical forces social impacts and economic determinism the architect must be a very powerful dreamer with dreams big enough to engulf and obliterate all kinds of secondary realities The extent to which Oscar Niemeyer is the very able the highly effectual dreamer is made evident in Professor Papadaki s essay Niemeyer by giving to basic architectural forms a new and surprising meaning created variations and new solutions with local patterns which have a grace and subtlety until then unknown to modern architecture stated Lucio Costa the most respected architectural voice in all of Latin America in perhaps the clearest summation of Niemeyer s contribution to contemporary building activity To all appearances Niemeyer is not a theorist he indulges in the ineffable delight of designing buildings in the direct creative processes which in architecture are not free of the painful shocks of reality nor unmixed with heartaches Yet the stern realities of an architectural problem the dictates of the terrain the demands of the building program the commands of technology the availability of skills and the choice of materials the restrictions of budget and the incoherencies of the client all become with Niemeyer the subjects of a miraculous metamorphosis the elements of a lyrical act Professor Papadaki describes the latent state of exuberance which is so much

suggested by the climate the topography and the flora of Brazil and which finds in Niemeyer's work a tangible plastic expression architecture becoming in its turn one of man's essential joys Amazon **Curves of Time** Oscar Niemeyer, 2000-01-10 The memoirs of the architectural master Oscar Niemeyer a pioneer of Modernism *Tremaine Houses* Volker M. Welter, 2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremaine family sustained for nearly four decades in the mid twentieth century From the late 1930s to the early 1970s two brothers Burton G Tremaine and Warren D Tremaine and their respective wives Emily Hall Tremaine and Katharine Williams Tremaine commissioned approximately thirty architecture and design projects Richard Neutra and Oscar Niemeyer designed the best known Tremaine houses Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement Focusing on the Tremaines houses and other projects such as a visitor center at the meteor crater in Arizona this volume explores the Tremaines architectural patronage in terms of the family's motivations and values exposing patterns in what may appear as an eclectic collection of modern architecture Architectural historian Volker M Welter argues that the Tremaines patronage was not driven by any single factor rather it stemmed from a network of motives comprising the clients practical requirements their private and public lives and their ideas about architecture and art **Houses and Interiors Vol 2** Harry Seidler, 2003 No other architect in Australia's history has been as internationally influential or famous as Harry Seidler This work provides an insight into and an analysis of the designs selected by Seidler to be his most important **The Secret Life of the Modern House** Dominic Bradbury, 2021-04-01 Informative and entertaining this publication is a feast for the eyes while also thought provoking and offers excellent inspiration for daydreaming about what makes the perfect modern house Wallpaper A fascinating selection of innovative homes this is a thoughtful journey through the evolution of domestic architecture Sunday Express Over the last century the way that we live at home has changed dramatically Nothing short of a design revolution has transformed our houses and the spaces within them moving from traditional patterns of living all the way through to an era of more fluid open plan and modern styles Whether we live in a new home or a period house our spaces will have been shaped one way or another by the pioneering Modernists and Mid century architects and designers who argued for a fresh way of life Architectural and design writer Dominic Bradbury charts the course of this voyage all the way from the late 19th century through to the houses of today in this ground breaking book Over nineteen thematic chapters he explains the way our houses have been reinvented while taking in along the way the giants of Art Deco influential Modernists including Le Corbusier and Frank Lloyd Wright as well as post war innovators such as Eero Saarinen and Philip Johnson Taking us from the 20th to the 21st century Bradbury explores the progress of modernity itself and reveals the secret history of our very own homes Brazil Built Zilah Quezado Deckker, 2013-09-13 The book constitutes a unique presentation of the major Modern buildings in Brazil in their historical context Prompted by the contemporary revaluation of Modernism and the renewed interest in Brazil this book examines how

the buildings came into being how they came to be so highly regarded and the changing reactions to them in Brazil and abroad Jacket
