the mission field they established congregation to congregation partnerships with churches in the global South Janel Kragt Bakker draws on extensive fieldwork and interviews with participants in these partnerships to explore the sister church movement and in particular its effects on American churches Because Christianity is numerically and in many ways spiritually stronger in the global South than it is in the global North while the imbalance in material resources runs in the opposite direction both northern and southern Christians stand to gain Challenging prevailing notions of friction between northern and southern Christians Bakker argues that sister church relationships are marked by interconnectivity and collaboration The Foreign church chronicle and review ,1877
