An Outline of English Speech William Barnes, 2023-07-06 An Outline of English Speech craft is a book written to teach Anglo Saxon speech to English minds, written by William Barnes, a philologist and English writer who has been attributed for more than 800 poems. This book is an effort to teach English grammar speech with quotes from more than 70 different languages. The author mentions in his preface that the word grammar itself is a misused word for grapho is to write and graphma worn into gramma means a writing and the word grammatik meant with the Greeks booklore or literature in the main and not speech teaching alone.

Fossil Poetry Chris Jones, 2018-08-08 Fossil Poetry provides the first book length overview of the place of Anglo Saxon in nineteenth century poetry in English. It addresses the use and role of Anglo Saxon as a resource by Romantic and Victorian poets in their own compositions as well as the construction and invention of Anglo Saxon in and by nineteenth century poetry. Fossil Poetry takes its title from a famous passage on early language in the essays of Ralph Waldo Emerson and uses the metaphor of the fossil to contextualize poetic Anglo Saxonism within the developments that had been taking place in the fields of geology, palaeontology and the evolutionary life sciences since James Hutton's apprehension of deep time in his 1788 Theory of the Earth. Fossil Poetry argues that two roughly consecutive phases of poetic Anglo Saxonism took place over the course of the nineteenth century: firstly a phase of constant roots whereby Anglo Saxon is constructed to resemble and so to legitimize a tradition of English Romanticism conceived as essential and unchanging; secondly a phase in which the strangeness of many of the extinct philological forms of early English is acknowledged and becomes concurrent with a desire to recover and recuperate the fossils of Anglo Saxon within contemporary English poetry. The volume advances new readings of work by a variety of poets including Walter Scott, Henry Longfellow, William Wordsworth, William Barnes, Walt Whitman, Ralph Waldo Emerson, William Morris, Alfred Tennyson and Gerard Hopkins.

Nineteenth-Century British Critic Professor Jason Camlot, 2013-04-28 In analyzing the nonfiction works of writers such as
 John Wilson J S Mill De Quincy Ruskin Arnold Pater and Wilde Jason Camlot provides an important context for the nineteenth
 century critic s changing ideas about style rhetoric and technologies of communication In particular Camlot contributes to
 our understanding of how new print media affected the Romantic and Victorian critic s sense of self as he elaborates the
 ways nineteenth century critics used their own essays on rhetoric and stylistics to speculate about the changing conditions
 for the production and reception of ideas and the formulation of authorial character Camlot argues that the early 1830s mark
 the moment when a previously coherent tradition of pragmatic rhetoric was fragmented and redistributed into the diverse
 localized sites of an emerging periodicals market Publishing venues for writers multiplied at midcentury establishing a new
 stylistic norm for criticism one that affirmed style as the manifestation of English discipline and objectivity The figure of the
 professional critic soon subsumed the authority of the polyglot intellectual and the later decades of the nineteenth century
 brought about a debate on aesthetics and criticism that set ideals of Saxon rooted virile style against more culturally
