Microsoft Excel 2013 Benchmark Paradigm Publishing:

In It to Win Lori Cox Han, 2015-05-21 When will the United States elect its first woman president Many political observers believed that Hillary Clinton would win the White House in 2008 and many still believe she is a strong contender for 2016 Yet while many believe that electing the first woman president is not a question of if but who and when media speculation on the topic has yet to move it from an interesting talking point to political reality The question remains Just how close are we to breaking this final political glass ceiling By merging the two literatures of women and politics especially women as candidates and presidential campaigns and elections a winning strategy for women candidates can emerge by analyzing what political science research tells us from past campaigns and what we can expect in the future

Understanding the High Performance Workplace Neal M. Ashkanasy, Rebecca J. Bennett, Mark J. Martinko, 2016-06-10 This book asks the crucial question When does high performance supervision become abusive supervision As more organizations push to adopt high performance work practices HPWP the onus increasingly falls on supervisors to do whatever it takes to maximize the productivity of their work teams In this rigorous research based volume international contributors offer insight into how and when seemingly beneficial workplace practices cross the line from motivation to abuse By reviewing critical issues in both high performance work practices and abusive supervision it illuminates the crossover between these two modes of work and forges a path for future scholarship

Hudson, 2020-02-07 American Democracy in Peril encapsulates the tumultuous state of American politics By introducing the history of democratic theory in terms of four models of democracy Hudson provides readers with a set of criteria against which to evaluate the challenges discussed later This provocative book offers a structured yet critical examination of the American political system designed to stimulate students to consider how the facts they learn about American politics relate to democratic ideals This new edition incorporates the Trump Presidency and the polarization that has accompanied his leadership Redefining Higher Education Melvyn L. Fein, 2022-02-26 Higher education is in trouble Commentators of all stripes bemoan escalating costs and diminishing quality Solutions have been offered from all quarters but tend to be piecemeal and all too often ideological In this tough minded look at the history current climate and future of university education in the United States Melvyn L Fein re examines the mission of higher education and outlines what institutions can do to better prepare students for an ever more complex techno commercial society Fein argues that students must have the opportunity to explore and discover what works for them and that the most important tool for institutions of higher education is self direction Professors must be allowed to teach in their own ways bringing their own experience into the classroom Since university missions differ both universities and professors need the freedom to make decisions independently The imminent need is for a democratic elite consisting of self directed leaders who

possess technical and social expertise as well as personal motivation The tools for change are appropriate curricula communities of learners and a genuine marketplace of ideas While there is no magic bullet Fein contends that we can and should build on the achievements of the past so as to evolve more responsive educational institutions those that promote merit responsibility and universalism

Speaking Truth to Power Ginsberg, Benjamin, Paschall, Collin, 2022-09-06 Truth and power have a difficult relationship Decision makers are often required to make judgements that depend upon specialized knowledge and thus reluctantly surrender power They are apt to reject advice inconsistent with their perceived interests experiences and cognitive capacities Speaking Truth to Power aims to guide the reader through the tangled relationship between truth and power manifesting as the interplay between experts and decision makers in society

Psychopathology at School Valerie Harwood, Julie Allan, 2014-03-26 Psychopathology at School provides a timely response to concerns about the rising numbers of children whose behaviour is recognised and understood as a medicalised condition rather than simply as poor behaviour caused by other factors It is the first scholarly analysis of psychopathology which draws on the philosophers Foucault Deleuze Guattari and Arendt to examine the processes whereby children s behaviour is pathologised The heightened attention to mental disorders is contrasted with education practices in the early and mid to late twentieth century and the emergence of a new conceptualization of childhood is explored Taking education as a central component to the contemporary experience of growing up the book charts the ways in which mental disorders have become commonplace in childhood and youth from birth through to college and university but also offers examples of where professionals have refused to pathologise children s behaviour The book examines the extent of the influence of psychopathology on the lives of children and young people as well as the practices that infiltrate education and the possibilities for alternative educational responses that negate the diagnosis of mental disorder Psychopathology at School is a must read for anyone concerned about the growing influence of psychopathology in education and will be of particular interest to educated readers and to scholars students and professionals in education psychiatry psychology child studies youth studies nursing social work and sociology
