American Literature and Culture in an Age of Cold War Steven Belletto, Daniel Grausam, 2012-10 Authors and artists discussed include Joseph Conrad Edwin Denby Joan Didion Ralph Waldo Emerson Allen Ginsberg Frank Berbert Richard Kim Norman Mailer Malcolm X Alan Nadel and John Updike

The Palgrave Handbook of Cold War Literature Andrew Hammond, 2020-09-04 This book offers a comprehensive guide to global literary engagement with the Cold War Eschewing the common focus on national cultures the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders Drawing on specialists from across the world the volume analyses the period's fiction poetry drama and autobiographical writings in three sections dominant concerns socialism decolonisation nuclearism propaganda censorship espionage common genres postmodernism socialism realism dystopianism migrant poetry science fiction testimonial writing and regional cultures Asia Africa Oceania Europe and the Americas In doing so the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period including specialists in comparative literature postcolonial literature contemporary literature and regional literature

Neocolonial Fictions of the Global Cold War Steven Belletto, Joseph Keith, 2019-06-03 Bringing together noted scholars in the fields of literary cultural gender and race studies this edited volume challenges us to reconsider our understanding of the Cold War revealing it to be a global phenomenon rather than just a binary conflict between U S and Soviet forces Shining a spotlight on writers from the war's numerous fronts and applying lenses of race gender and decolonization the essayists present several new angles from which to view the tense global showdown that lasted roughly a half century Ultimately they reframe the Cold War not merely as a divide between the Soviet Union and the United States but between nations rich and poor and mostly white and mostly not By emphasizing the global dimensions of the Cold War this innovative collection reveals emergent forms of post WWII empire that continue to shape our world today thereby raising the question of whether the Cold War has ever fully ended

Vladimir Nabokov in Context David M. Bethea, Siggy Frank, 2018-05-24 Vladimir Nabokov bilingual writer of dazzling masterpieces is a phenomenon that both resists and requires contextualization This book challenges the myth of Nabokov as a sole genius who worked in isolation from his surroundings as it seeks to anchor his work firmly within the historical cultural intellectual and political contexts of the turbulent twentieth century Vladimir Nabokov in Context maps the ever changing sites people cultures and ideologies of his itinerant life which shaped the production and reception of his work

Concise and lively essays by leading scholars reveal a complex relationship of mutual influence between Nabokov's work and his environment. Appealing to a wide community of literary scholars, this timely companion to Nabokov's writing offers new insights and approaches to one of the most important and yet most elusive writers of modern literature. *Cold War Friendships* Josephine Nock-Hee Park, 2016-05-02 Drawing on epochal films such as *The Manchurian Candidate* and Samuel Fuller's *Steel Helmet* in addition to landmark literature by the likes of Richard Kim Chang, rae Lee, Susan Choi, Le Ly Hayslip, and Maxine Hong Kingston, *Cold War Friendships* explores the plight of the Asian ally of the American wars in Korea and Vietnam.

In the Shadow of the Bomb Niall Heffernan, 2018-04-03 Detective McNulty applies bite marks to a deceased man's body with a set of dentures in *The Wire*, illustrating how officialdom deals in falsehood. Dr. Strangelove lovingly describes the doomsday machine as being free from human meddling while it destroys the world, highlighting the absurdity of placing systems above any moral considerations. In *Crash*, Ballard survives a car accident only to be cared for by a paternal technology that tends only to his physical needs, a life of technical certitude bereft of beauty. The Cold War, with its promise of imminent and purposeless doom, profoundly shaped the postmodern world in ways that are not yet appreciated. This study examines the Cold War zeitgeist and its aftermath as shown in fiction, film, and television.

Fictions of Fact and Value Michael LeMahieu, 2013-10-02 *Fictions of Fact and Value* argues that the philosophy of logical positivism, considered the antithesis of literary postmodernism, exerts a determining influence on the development of American fiction in the three decades following 1945. In what amounts to a constitutive encounter between literature and philosophy at mid-century, after the end of modernism as it was traditionally conceived but prior to the rise of postmodernism as it came to be known, two particular postwar literary preoccupations derive from logical positivist philosophy: the fact-value problem and the correlative distinction between sense and nonsense. Even as postwar writers responded to logical positivism as a threat to the imagination, their works often manifest its influence specifically with regard to emotive or meaningless terms. Far from a straightforward history of ideas, *Fictions of Fact and Value* charts a genealogy that is often erased in the very texts where it registers and disowned by the very authors that it includes. LeMahieu complicates a predominant narrative of intellectual history in which a liberating postmodernism triumphs over a reactionary positivism by historicizing the literary response to positivism in works by John Barth, Saul Bellow, Don DeLillo, Iris Murdoch, Flannery O'Connor, Thomas Pynchon, and Ludwig Wittgenstein. As LeMahieu compellingly demonstrates, the centrality of the fact-value problem to both positivism and postmodernism demands a rethinking of postwar literary history. A trenchantly argued study that unearths an important part of postwar literary history, *Fictions of Fact and Value* will interest anyone concerned with postmodernism, modernist studies, analytic philosophy, or the history of ideas.

Modern Luck Robert S. C. Gordon, 2023-01-16 Beliefs, superstitions, and tales about luck are present across all human cultures, according to anthropologists. We are perennially fascinated by luck and by its association with happiness and danger, uncertainty and aspiration. Yet it remains an elusive, ungraspable idea, one that slips

and slides over time all cultures reimagine what luck is and how to tame it at different stages in their history and the modernity of the long twentieth century is no exception to the rule Apparently overshadowed by more conceptually tight scientific and characteristically modern notions such as chance contingency probability or randomness luck nevertheless persists in all its messiness and vitality used in our everyday language and the subject of studies by everyone from philosophers to psychologists economists to self help gurus Modern Luck sets out to explore the enigma of luck s presence in modernity examining the hybrid forms it has taken on in the modern imagination and in particular in the field of modern stories Indeed it argues that modern luck is constituted through narrative through modern luck stories Analysing a rich and unusually eclectic range of narrative taken from literature film music television and theatre from Dostoevsky to Philip K Dick from Pinocchio to Cimino from Curtiz to Kie lowski it lays out first the usages and meanings of the language of luck and then the key figures patterns and motifs that govern the stories told about it from the late nineteenth century to the present day
